

AY2022 Hiyoshi Spring Semester List of Courses with Screenings [PEARL] (Courses Offered in English)

The list for the courses selected for enrollment (“Automatic lottery + screening courses” and “first class screening courses”) is as follows.
Please be sure to check this list as some courses may have special instructions regarding the method of adjusting course registrations.

If you wish to register for a course included on this list, please be sure to register no later than the day before the first class of the course starts (23:59) and attend the first-class session.

Because “K-LMS” cannot be used at the time of the first class even if course registrations are completed on or after the day the first-class session is held, there is a possibility that you will not be included in the screening/lottery.

You will in principle be notified regarding the screening results by e-mail to your keio.jp account no later than 20:00 on the day of the first-class session.

*If you do not receive a notification by the next day, please contact the Hiyoshi Office of Student Services.

Screening after first-class session method:

an arbitrary screening will be conducted during the first-class session.
