2 Course Registration Limit

The maximum number of credits that students may register in the third and fourth years respectively is **48 credits per Academic Year (FS)**, which includes the following credits for Research Seminars:

Third year: 4 credits (A and B) Fourth year: 8 credits (C, D, and graduation thesis)

(1) Courses not included in the course registration limit

- Mandatory courses marked with ■ that are listed under "1 Total Credits Required for Graduation".
- Institute for Journalism, Media & Communication Studies courses registered by research students of the institute outside of the course registration limit.
- Courses registered by students taking Teacher Training Courses for the purposes of obtaining a teaching license, outside of the course registration limit.
- Courses offered by graduate schools that are taken while enrolled in the fourth year (see "7 Taking Graduate School Courses Prior to Joining a Graduate School" under "4 Notes on Taking Courses").

(2) Other notes

- Optional Courses registered in the field number [60-30-51] are included in the course registration limit.
- Courses students have failed to pass, are still included in the course registration limit.
- Students repeating a year can register a maximum of 48 new credits in the same year level.
- Corequisite courses that are offered both in Spring and Fall semesters: credits of Spring part is counted in Academic Year 2020-2021's limit, and Fall part in Academic Year 2021-2022's registration limit.

3 Credits Required in Third Year to Advance to the Next Year

Students must satisfy the criteria set out under both (1) and (2) below in order to advance to the fourth year.

(1) **Earn 8 credits in Foundation Courses and 16 credits in Introductory Subjects in Major Subject**

(1)-i) 8 credits in Foundation Courses (no breakdown specified*)

*There are no specifications regarding the breakdown of credits, so it is acceptable to earn a total of 8 credits from any of the Foundation Courses.

(Even if you do not pass the Mandatory Courses it is possible to satisfy this requirement by taking Elective courses.)

Example: A student fails to pass Statistics 1 and Statistics 2, but passes Introduction to the Japanese Economy, Historical perspectives in Economic Analysis, Introduction to Calculus, and Information Processing 2.

(1)-ii) 16 credits in Major Subject Introductory Subjects (no breakdown specified*)

*There are no specifications regarding the breakdown of credits, so it is acceptable to earn a total of 16 credits from any of Introductory Subjects including Mandatory Elective and Mandatory courses (even if you do not pass the Mandatory courses it is possible to satisfy this requirement by taking over 4 credits-worth of Mandatory Elective courses).

Example: A student fails to pass Introduction to Microeconomics 1, but in addition to passing the other required courses (Elementary Economic History 1, Elementary Economic History 2, Elementary Macroeconomics 1, Elementary Macroeconomics 2 and Introduction to Microeconomics 2), he or she also earns 6 credits from the Mandatory Elective courses (such as Economics and Environment, Introduction to Econometrics, and Marxian Economics 1).

(2) **Earn 28 credits in the third year from courses registered within the course registration limit**

*The following courses are also included in the 28 credits.

- Untaken Graduation Credits (by Category) for General Education and Foreign Language Courses
- Optional courses within the course registration limit (Field number [60-30-51])
- Accredited credits from courses taken while studying abroad
- (For students repeating a year) Third-year credits earned in previous academic years

■ **Courses not included in the above 28 credits**

- **Courses which are taken outside of the course registration limit (Mandatory Foundation Courses, Mandatory Introductory Subjects in Major Subjects Courses Category, Optional Courses registered outside the course registration limit)**
E.g., even if you retake Statistics 1, which you failed before, and earn the credits in the third year, it will not be included in the 28 credits.
- **Corequisite Courses (SF) students are currently taking.**
- (For students repeating a year) If you retake a course which you have already taken in the third year and received a grade of A, B, or C at that time, the course will be offset and will not be included in the 28 credits.

4 Credits Required in Fourth Year to Graduate

Students must satisfy the criteria set out under both (1) and (2) below in order to graduate.

(1) **Earn 126 credits required for graduation**

(2) **Earn 12 credits in the fourth year from courses taken within the course registration limits**

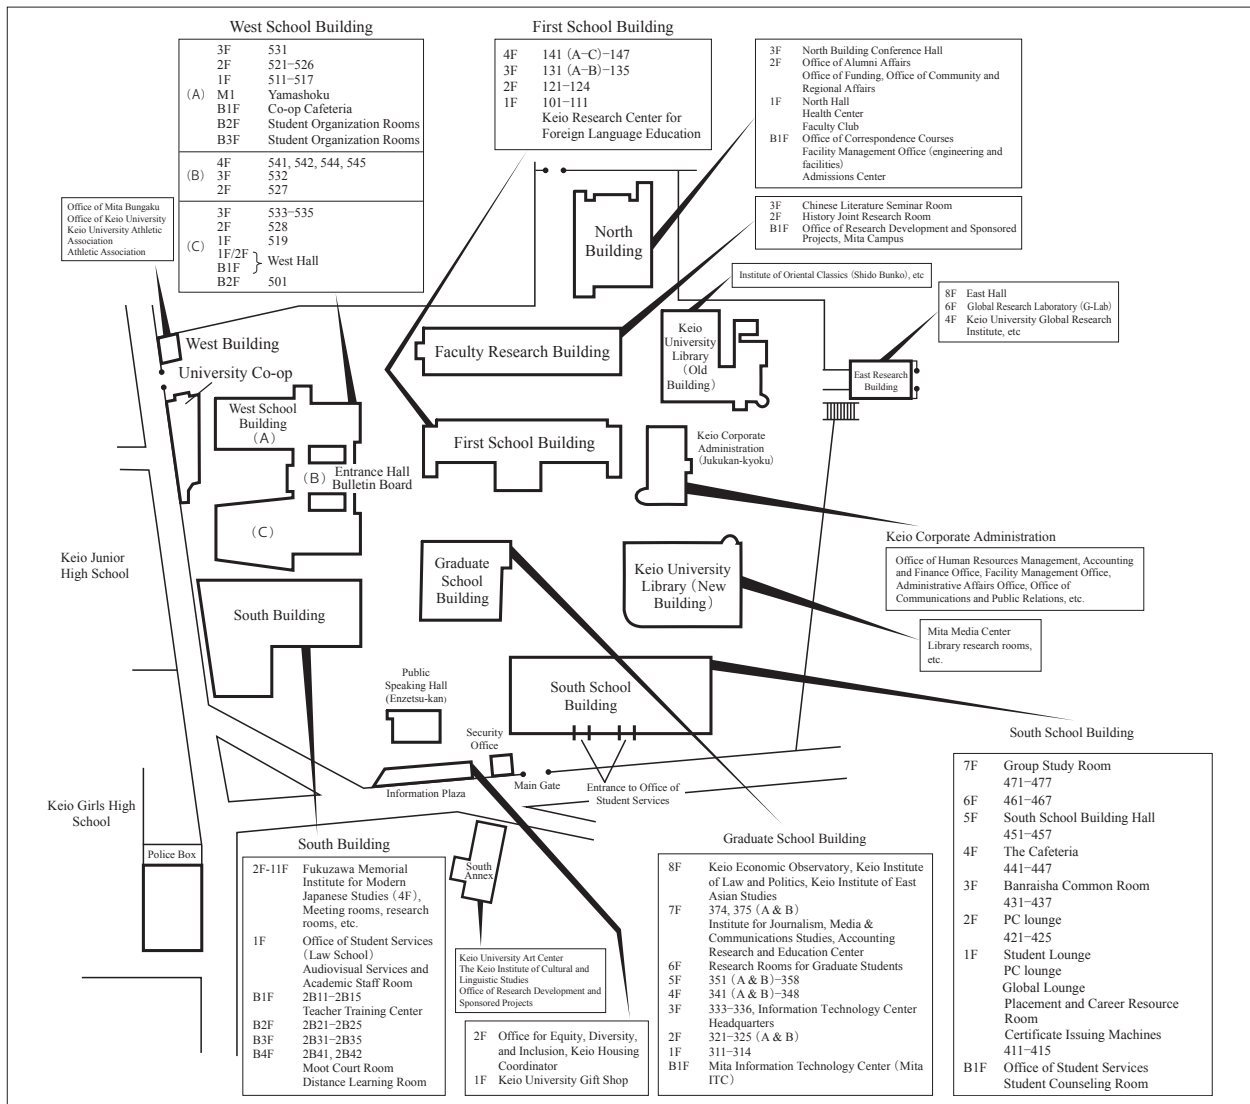

Note: The following courses are also included in 12 credits.

- Untaken Graduation Credits (by Category) for General Education and Foreign Language Courses
- Optional courses within the course registration limit (Field number [60-30-51])
- Accredited credits from courses taken while studying abroad
- (For students repeating a year) Fourth-year credits earned in previous academic years

■ **Courses not included in the above 12 credits**

- **Courses which are not taken within the course registration limit (Mandatory Foundation courses, Mandatory Introductory Subjects in Major Subjects Courses Category, and Optional Courses registered outside the course registration limit)**
E.g., even if you retake Statistics 1, which you took and failed previously, and earn credits in the fourth year, it will not be included in the 12 credits.
- (For students repeating a year) If you retake a course which you have already taken in the fourth year and received a grade of A, B, or C at that time, the course will be offset and will not be included in the 12 credits.
