Master's Program in Taxation Policy and Management
(TPM)

Graduate School of Business and Commerce
Keio University

I . Dean's Message to the Students of the Master's Program in Taxation Policy and Management

Professor Masahiro ENDOH
Dean of the Graduate School of Business and Commerce

Welcome to our Master's Program in Taxation Policy and Management. This specialized program in tax administration and policy was implemented in the fall semester of 2022. Although relatively new in its current form, it has an illustrious history as the successor to a program jointly managed with the World Bank for more than a quarter of a century since the mid-1990s. Through this program, more than 100 students from over 35 countries have earned their master's degrees. In the fall semester of 2022, the program became an independent Master's Program in the Taxation Policy and Management course of the Graduate School of Business and Commerce. We are very pleased to welcome you to this updated program.

Our program is a two-year course designed specifically for promising individuals, who have been, or are expected to be, engaged in the policy making and tax administration of developing countries. Our faculty members have devoted their time and expertise to ensure that this program meets the highest standards. In addendum, the National Tax College provides a practicum course to those enrolled in this program, where the experience of studying alongside students from other universities is provided.

Studying in a foreign country is by no means easy. You will need to continue your academic work while also adjusting to a new social environment and live in a climate that may be unfamiliar to you. However, if you fully dedicate yourself to this two-year program, you will not only earn a master's degree but also gain valuable experience that will serve as a lifelong asset.

Your life at Keio University will not be limited to studying. The opportunity to build a personal network of friends and acquaintances is something that comes with this program. I hope that you will be able to enjoy your life to the fullest during these two years. Our Graduate School will make every effort to ensure that your time here is as fruitful and rewarding as possible.

II . Program Guide for TPM Students

A. Program requirements

The Master's Program in Taxation Policy and Management is a two-year program which offers a degree of Master of Arts in Business and Commerce. For completing the program, students are obliged to fulfill the coursework requirements as well as to write a master's thesis and pass the following thesis defense as explained below. Students who successfully complete the program will be awarded the master's degree.

(Coursework)

Students are required to take all Mandatory Courses with 32 credits in total. Mandatory Courses include Seminar: Advanced Study of Tax Administration (the Practicum) which is provided by the National Tax College. In addition, students are strongly advised to acquire at least 8 credits from Recommendable Courses in order to make full use of the study opportunities offered in the Program. The list of Mandatory Courses and Recommendable Courses is given on the next page.

(Thesis)

The program also requires students to write and submit a thesis and pass the following thesis defense. The deadline for registering a thesis title is normally in early May in the second year and the deadline for submitting a thesis is normally in late June in the second year.

B. Curriculum

In principle, each course provides a 90-minute class per week. 2 credits are awarded for successful completion of each course for one term (14 weeks). Student performance is evaluated on a scale of S, A, B, C (PASS) and D (FAIL).

Classes of the Specialized subjects and the Seminars are basically designed to provide students with opportunities to give presentations and conducting class discussions based on their research work. Some Seminars help students develop their thesis work with tutorials provided by teaching staff.

In general, courses are provided based on the semester system which allows students to complete each course in one semester. However, there may be courses which are practically completed in two semesters such as Seminar: Advanced Study of Tax Administration, the details of which are provided directly by the National Tax College.

The main feature of the Program is to offer a wide variety of courses to match the various interests of students. In addition to the Mandatory and Recommendable Courses mentioned above, with approval of their supervisors, students can take other courses provided by the Graduate School of Business and Commerce as well as those offered by other graduate schools at Mita campus, i.e., Graduate Schools of Economics, Laws, Letters and Human Relations as far as they are provided in English.

C. AY2026 Course Descriptions

Each course has a practical, applied orientation and relies mainly on Japanese examples and case studies. All courses are conducted in English and taught at the Graduate School of Business and Commerce. The summaries of the courses are given in the syllabus (<https://gslbs.keio.jp/syllabus/search>). When searching the syllabus, you may find multiple courses with the same course title. In that case, please check the course instructor's name on pages 4-5.

For the latest information, please refer to the Keio Student Website.

<https://www.students.keio.ac.jp/en/com/class/schedule/sokei.html>

E. Course Registration

If you wish to take any courses, please be sure to register for them via K-Support during the **First Course Registration Period**. Please note that you do not need to register for any mandatory courses as they have already been registered. If you wish to take courses other than mandatory or recommendable courses, please be sure to obtain permission from your academic advisor

For details, please refer to the manual below:

<https://www.students.keio.ac.jp/en/com/class/system/course-reg-manual.html>

You should carefully check the "Recommendable Courses" that you have registered for on your own. Grades for Mandatory Courses are included in your GPA, but for Recommendable Courses, you can choose whether or not to include them in your GPA. If you register for Recommendable Courses as "Optional Subject", they will not be included in your GPA. If you do not want your Recommendable Courses' grades to be included in your GPA, you need to register Recommendable Courses as "Optional Subjects" by yourself during the first course registration period or the second course registration period.

Please note that some courses may have a lottery if there are too many students who wish to take the course or if the lecturer selects the participants.

If you wish to take a course where the lecturer selects the students, please check "Lecturer's Comments to Students" on syllabus in advance and apply by the designated deadline and selection method in advance.

The results of Selection and lotteries will be announced on the "Course registration" screen.

<Important points for course registration>

(1) There may be restrictions on courses offered by other faculties and graduate schools that you are allowed to register for. Please see the URL below for further information.

<https://www.students.keio.ac.jp/en/com/class/registration/other-faculties.html>

(2) Before registering for courses, check the syllabus (<https://gslbs.keio.jp/syllabus/search>) carefully, since the course timetable may change, some courses may impose new restrictions on the eligibility of students, or new courses may become available.

(3) To search for courses offered in English, select 'English' under 'Language of Instruction' in the

'▼Specify detailed conditions' section of the syllabus search.

(4) Attend all classes you have registered for and classes you are likely to add until the results of the course registration are announced.

(5) No credits will be given for courses that have not been registered.
