[IMPORTANT]

The information that has been provided through the booklet is now made available as the SFC GUIDE Web on the Keio University Student Website. The website also includes information that is not contained in this booklet, so please be sure to go through it as well.

URL: <https://www.students.keio.ac.jp/en/sfc/pmei/guide.html>

This guide covers rules and regulations, and various notes for students enrolled in the Faculty of Policy Management and the Faculty of Environment and Information Studies in the 2022 academic year. Read this guide carefully as a companion to the University Undergraduate Rules and Regulations booklet you received when entering the University, and be sure that you understand the contents fully before registering courses.

It is important to bear in mind that you must accept responsibility for any disadvantages resulting from failure to read this booklet, the keio.jp portal, and the Keio University Student Website or failure to listen to the cautionary advice given during orientation.

If there are any matters unclear to you after reading this booklet, ask your Academic Advisors or the SFC Academic Affairs Office, and do not leave such matters unclarified.

2022 SFC Academic Calendar

*The academic calendar may differ by campus. Please check the Keio University Student Website for the academic calendars of other campuses.

*Please note that dates and times are subject to change. The latest information will be posted on the keio.jp portal, etc.

1 Introduction to SFC

1 Academic Affairs Office

(1) Office Business Hours

Academic Affairs Office, 1F A (Alpha) Bldg.

Regular Hours

Weekdays: 9:15–16:50

During Semester Break Periods

Weekdays: 9:15–11:30 and 12:30–16:50

(when there are no classes or examinations)

Notes:

- ◆ The Academic Affairs Office is closed on Saturdays, Sundays, national holidays on which there are no classes (including makeup classes), January 10 (Keio Founder Yukichi Fukuzawa's Birthday), and campus-wide summer and winter break periods.
- ◆ Notification will be provided on the Keio University Student Website (<https://www.students.keio.ac.jp/en/sfc/pmei/>) or keio.jp portal in the event that the office will be closed on any other day than indicated above.

(2) Student ID Card

Your Student ID Card certifies that you are a student of Keio University. **Please be sure to carry it with you at all times as it is required in a variety of situations. All procedures at the office require presentation of the Student ID Card.**

A Student ID Card is issued as a set of three items: a printed plastic card, a registration sticker, and a card case. Affix the registration sticker to the back of the printed plastic card and keep the card inside the card case when carrying your Student ID Card around. The same card will be used until graduation.

Do not let anyone else use your Student ID Card.

(a) Registration Sticker

Registration stickers will no longer be updated annually from the 2022 academic year onwards. For students whose stickers expire, due to reasons such as taking a leave of absence, studying abroad, or repeating a year, stickers with updated expiration dates will be issued before the expiration date.

For students who have been enrolled since the 2021 academic year or earlier, a registration sticker, which is valid for 4 years from the time of enrollment (e.g., enrolled on April 1, 2020 → valid until March 31, 2024), will be issued in March 2022. Please affix the new sticker after removing the old one.

(b) Re-issuance

If the Student ID Card and/or registration sticker becomes lost, soiled, or damaged, apply for re-issuance by following the prescribed procedures.

(c) Return of Student ID Card

If you find your previous Student ID Card after reporting it as lost and a new one has been issued, you must immediately return your previous card to the Academic Affairs Office. Student ID Cards must also be returned when you leave Keio University, such as when withdrawing from the university.

(3) Notifications and Applications

(a) Notification of Change of Address of Student/Guarantor

Notification of change of address must be promptly completed if there are any changes to the student or guarantor's address, including government-issued changes to the address name, lot number, etc.

<For a change of address/phone number of the student>

Go to "Confirmation/Change of Address" under "Various changes" on the keio.jp portal to complete notification procedures. In principle, the change will be approved and officially registered on the following business day.

<For a change of address/phone number of the guarantor>

In the case of changes to the guarantor's address, the guarantor's Certificate of Residence will be required. Please note that the submitted Certificate of Residence should NOT include their "My Number (individual number)."

(b) Notification of Change of Guarantor

Please promptly notify in the case of a change of guarantor. The guarantor must be a financially independent adult who resides in Japan, and is able to bear the responsibility for the student's academic fees and conduct. Ideally, the guarantor should be a parent, but if this is not possible, the guarantor may be a legal guardian (sibling, aunt, uncle, etc.), or the equivalent. Please note, in the case that the student is unable to have someone residing in Japan act as their guarantor, a person residing overseas will be acceptable. However, in this case, the contact information that the student submits as "emergency contact"—to be used as the point of contact in the event of an emergency involving the said student—must be of someone who resides in Japan. It is a requirement that their emergency contact must be able to be contacted quickly in the event of an emergency.

(c) **Notification of Change of Name**

Please promptly report any change of name. If a change of address has also occurred, be sure to also make notification of change of address described in the above (a).

(d) **Notification of Off-campus Student Activities/Overseas Activity Application**

Any student club, organization, or Seminar (Kenkyukai) group wishing to engage in off-campus activities such as training camps, interscholastic competitions, and other similar events must fill out a Notification of Off-campus Student Activities, while an Overseas Activities Application must be completed when traveling overseas. The form/application needs to be prepared in advance on the Online System for Student Club Activities indicated below and must be approved by a faculty member in charge before it is submitted. It is important to note that if no such notification/application is submitted, accidents or injuries that occur during the course of the off-campus activities may not be covered by the Personal Accident Insurance for Students Pursuing Education and Research.

Online System for Student Club Activities: <https://studentlife.gakuji.keio.ac.jp/en>

(4) Certificates

For details regarding the types of certificates, how they are being issued, etc., refer to the following website.

<https://www.students.keio.ac.jp/en/com/procedure/certificate/issue.html>

Current students can issue certificates at:

- Certificate issuing machines on each campus
- Convenience stores nationwide (FamilyMart, Lawson, Seven-Eleven [listed in alphabetical order])

To use this service, you need to apply in advance online from the Certificate Issuance Service.

Please note that certificates will not be issued if your academic fees for the previous semester or earlier have not been paid.

There is one certificate issuing machine in front of the Academic Affairs Office on the first floor of the A (Alpha) Building.

Times of operation: 9:15–20:00 (Monday to Saturday)

*No service on Saturdays when there are no classes.

*No service on Sundays, national holidays, University administration holidays, or at the end of the semester.

Some certificates which need to be securely sealed (issued in a sealed envelope) cannot be issued at certificate issuing machines and convenience stores. If you require a certificate in a sealed envelope or need to have the particular certificates, make a request to the Academic Affairs Office at SFC. Please note that certificates issued from a certificate issuing machine or at a convenience store cannot be later officially sealed in an envelope.

◆ **Student commuter certificate (to purchase a student commuter pass)**

The procedure for purchasing a student commuter pass will change beginning in the 2022 academic year. Please follow the steps below to obtain a paper “commuter certificate” before purchasing a student commuter pass. The procedures for commuting to other campuses besides a student’s main affiliated campus in order to take classes will be announced separately on the Keio University Student Website.

(a) Log in to the Certificate Issuance Service to apply for a student commuter certificate (access through the “Keio University Student Website” → “Procedures” → “Certificates” → “Information about Certificates” drop-down menus).

(b) Print the “Student Commuter Certificate” through a convenience store or a certificate issuing machine on campus.

(c) Fill out the required information such as the commuting route and present it, along with your student ID card, to the station office or commuter pass purchasing window in order to buy a commuter pass.

*While there are no transaction fees for issuing a “student commuter certificate,” printing the certificate at convenience stores costs 60 yen.

*The commuting route is defined as the most economical route option from the “station closest to your residence” to the “station closest to your campus.” (Or nearest bus stops for those commuting by bus.) If a student is found falsifying information, the issuance of the student's commuter certificate may be suspended, and the student may be punished in accordance with the University Rules and Regulations.

*If you change your home address, please make sure to register this through “Confirmation/Change of Address” on the Keio.jp portal. Your newly registered address will be reflected on your student commuter certificate beginning 7:00 the morning after you receive email confirmation of your change of address.

(5) Lost and Found

Please contact the SFC Academic Affairs Office regarding lost and found items within the University. If you find a lost property outside of office business hours, please take it to the Security Office.

<Handling of found items handed into the office>

- If the owner can be determined, the item will be held at the SFC Academic Affairs Office .
- If the owner cannot be determined, the item will be held at the Maintenance Office (Shonan Community) on the first floor of the A (Alpha) Building.

Unclaimed items left in the gymnasium, changing room lockers, classrooms, and other similar locations will be disposed of. If you suspect that your property was stolen, contact the Student Life Section, Academic Affairs Office.

(6) Yakan Zanryu (Overnight Study) at SFC

Students who wish to study overnight for the purpose of curricular activities must first receive permission from the faculty member in charge. Only students who have applied in advance may stay on campus during the overnight study period.

Be aware that permission for overnight study will not be granted under any circumstances for test preparation, club activities, job hunting, or other non-curricular undertakings.

The details are provided on the keio.jp portal or Keio University Student Website.

Overnight Study Period: 23:00–8:00 the following day

Notes: Security guards make rounds during overnight study periods, and you will be required to show them your Student ID Card. If you do not have your Student ID Card at that time due to the fact that you are borrowing keys, you should notify the security guard of this.

- Always stop by the North Gate Security Office if entering the campus after 22:30.
- Notify and get approval from family members or guardians for participation in overnight study.
- In case of emergency during overnight study, contact the North Gate Security Office (0466-47-5111 or ext. 52190, 52191).
- The university may suspend or prohibit overnight study without advance notice.

<Facilities Permitting Overnight Study>

- ◆ PC rooms and regular classrooms
- ◆ Joint laboratories and individual laboratories (only by students granted permission by faculty members)

2 Student Life Section

(1) Office Business Hours

Student Life Section, Academic Affairs Office, 1F A (Alpha) Bldg.

Regular Hours

Weekdays: 9:15–16:50

During Semester Break Periods

Weekdays: 9:15–11:30 and 12:30–16:50

(when there are no classes or examinations)

E-mail Address: sl@sfc.keio.ac.jp

Notes:

- ◆ The Student Life Section is closed on Saturdays, Sundays, national holidays on which there are no classes, January 10 (Keio Founder Yukichi Fukuzawa's Birthday), and campus-wide summer and winter break periods.
- ◆ Notification will be provided on the Keio University Student Website (<https://www.students.keio.ac.jp/en/sfc/pmei/>) in the event that the office will be closed on any other day than indicated above.

(2) Service

(a) Student Health Care Mutual Aid Association Medical Care Benefit System

As members of the Keio Student Health Care Mutual Aid Association (Gakusei Kenko Hoken Gojo Kumiai), regular undergraduate and graduate students at Keio University are eligible to apply for a partial reimbursement of medical expenses. Please refer to the Guidebook for the Keio University Student Health Insurance Plan (Kenpo-no-tebiki), or the following website for details: <https://www.students.keio.ac.jp/en/com/life/health/>

(b) Personal Accident Insurance for Students Pursuing Education and Research (“Gakkensai”)/ Liability Insurance coupled with “Gakkensai” (“Gakkenbai”)

Keio University is a member of Japan Educational Exchanges and Services (JEES), and through it, Keio pays for “Personal Accident Insurance for Students Pursuing Education and Research” and “Liability Insurance coupled with Gakkensai,” insurance plans that cover students who suffer physical injury from an unexpected accident or bear legal liability for damages arising from inflicting injuries to third parties in the course of their educational and research activities.

“Educational and research activities” means regular curricular activities on- and off-campus, participation in University events, and extracurricular activities (advance submission of “Notification of Off-campus Student Activities” to the University is required for off-campus activities). Please see the following website for details:

<https://www.students.keio.ac.jp/en/com/life/health/insurance.html>

(c) Scholarship Programs

Scholarship programs provide assistance to students who have difficulties in pursuing their studies due to financial reasons, or to those who demonstrate particular excellence in their personality and studies.

For details on available scholarships, refer to the Keio University Scholarship Information Guidebook (in Japanese only), or the Keio University Student Website.

Keio University Scholarship Information Guidebook (in Japanese only):

Available at the Student Life Section, Academic Affairs Office (1F, A (Alpha) Bldg.)

Keio University Student Website SFC scholarships page: <https://www.students.keio.ac.jp/en/sfc/scholarships/unique/>
Information for students whose nationality is other than Japanese, and status of residence is [留学] (Student) is available on the website above.

(d) Academic Fees and Expenses

Academic fees must be paid using the bank transfer (振込み) system. The forms required for payment will be sent to your guarantor. Payment should be made using these forms at a bank counter (not ATM) by the specified payment deadline. The receipt (納入証明書) should be kept in safekeeping as proof of payment.

<Payment-related Schedule>

	Spring Semester	Fall Semester
Scheduled Sending of Bank Transfer Forms	Around April 10	Around October 10
Deadline for Payment	Last day of April	Last day of October

<Application for Tuition Deferment>

If payment of tuition cannot be completed by the specified deadline due to unavoidable factors, an “Application for Tuition Deferment” (available at the Student Life Section, Academic Affairs Office, or at the website below) must be submitted by the applicable deadline as indicated below. If the University deems the reason for the delay to be valid, you will be provided with a “Notice of Approval of Tuition Deferment.”

	Deadline for Submission	Final Date Delayed Payment Accepted
Spring Semester	May 14	Late July
Fall Semester	November 15	Mid-December

*Please note that the above dates may change. Be sure to check the actual deadline with the Student Life Section, Academic Affairs Office, or at the website below before applying:

<https://www.students.keio.ac.jp/en/com/scholarships/tuition/extension.html>

<Application for Tuition Reduction Due to Large-scale Natural Disasters>

Tuition may be reduced or exempted in the case a student has major difficulties in continuing studies due to his/her financial situation after suffering in a large-scale natural disaster. Such students should consult with the Student Life Section, Academic Affairs Office. If a temporary leave of absence is necessary, please refer to the Keio University Student Website.

(e) Facilities Outside Keio

● Accommodations Contracted by the Student Health Care Mutual Aid Association

In order to ensure that students have access to accommodation at a reasonable rate, the Student Health Care Mutual Aid Association has made agreements with a number of ryokans (Japanese-style inns). For more details regarding the usage of these “contracted accommodations” and other related information, refer to the Guidebook for the Keio University Student Health Insurance Plan (Kenpo-no-tebiki).

● University Lodge in Tateshina (off-campus educational facility)

Address: 1153 Megamidaira, Ashida-Hakkano-aza, Oaza, Tateshina-machi, Kitasaku-gun, Nagano Prefecture

Telephone: 0267-55-6625

Availability: May 1–October 31

Groups accepted: Student clubs, Seminar (Kenkyukai) groups and the like of the regular curriculum, alumni, faculty and staff members

Reservation start date: February 6 of previous academic year (or following business day if this is a holiday) *The date may vary depending on the situation.

A pamphlet with further details is available at the Student Life Section on the first floor of the A (Alpha) Building.

● University Seminar House

Address: 1987-1 Shimoyugi, Hachioji-shi, Tokyo

Telephone: 042-676-8511

Website: <https://iush.jp/> (in Japanese only)

(3) Extracurricular Activities

(a) Student Club Applications

Student clubs that wish to register should submit the set of application forms each academic year. Please note there is a set deadline (in late April) for officially authorized student club applications. Following the evaluation procedure, if the club is recognized as being suitable and conforming to the educational aims of the University, it will become an officially authorized student club.

(b) Commuting Methods

● Commuting by Bicycle or Motorcycle

Students who commute to SFC by bicycle must park in the parking lots located on the right after entering the North Gate.

Students who plan to park their motorcycles on campus must first register their motorcycles with the Student Life Section, Academic Affairs Office on the first floor of the A (Alpha) Building.

Abandoned bicycles and motorcycles will be removed, so please look after your own bicycle/motorcycle.

● Commuting by Car

In principle, driving a car onto campus and parking is prohibited.

Students commuting by car should park off campus.

Monthly contracts for parking lots in the area around campus can be arranged at the Maintenance Office (Shonan Community 0466-48-8917) on the first floor of the A (Alpha) Building.

(c) Locker Rentals

Students who wish to use the lockers located in the κ (Kappa), ι (Iota), Ω (Omega) Buildings, etc., should contact the Maintenance Office (Shonan Community 0466-48-8917) on the first floor of the A (Alpha) Building.

3 Career Services Section (CDP Office)

The Career Services Section (CDP Office), located in the Academic Affairs Office on the first floor of the A (Alpha) Building, provides services related to recruitment and career options. A wide range of support is available to all students, so please feel free to stop by.

Keio University Student Website Placement and Career Services page <https://www.students.keio.ac.jp/en/com/career/service/>

Facebook Career Services Section (CDP Office) page <https://www.facebook.com/keiosfccdp>

(1) Office Business Hours

Regular Hours

Weekdays: 9:15–16:50

During Semester Break Periods

Weekdays: 9:15–11:30 and 12:30–16:50

(when there are no classes or examinations)

E-mail Address: cdp@sfc.keio.ac.jp

Notes:

- ◆ The Career Services Section is closed on Saturdays, Sundays, national holidays on which there are no classes, January 10 (Keio Founder Yukichi Fukuzawa's Birthday), and campus-wide summer and winter break periods.
- ◆ Notification will be provided on the Keio University Student Website (<https://www.students.keio.ac.jp/en/sfc/pmei/>) in the event that the office will be closed on any other day than indicated above.

(2) Service

(a) Individual Consultations

The Career Services Section offers consultations to students regarding employment options, recruiting, and all matters related to future careers. All students can take advantage of these services. Furthermore, if desired, you can have your CV or entry sheet reviewed and undergo mock interviews. Individual consultations are available either face-to-face or online by appointment only.

(b) Orientation Events and Seminars

Numerous orientation events and seminars related to placement and career are held on campus. Many of these events and seminars are open to all students, regardless of their year. Information on these events and seminars will be posted on the notice boards on the first floor of the A (Alpha) Building, and on the Keio University Student Website page indicated above.

(c) Recruitment Information, Accounts of Recruitment Experiences, Alumni Databases

Through use of the Keio Single Sign-On System ([keio.jp](https://www.keio.ac.jp)), recruitment information provided to the University by corporations and organizations, and accounts of recruitment experiences can be accessed from both on and off campus. Paper-based recruitment information can be viewed on the Keio University Student Website page indicated above or in the Career Services Section. Additionally, alumni databases can only be viewed in the Career Services Section by students from the Fall Semester of the third year.

(d) Information on Internships

Internship information provided by corporations and organizations will be posted on the internship page of the Keio University Student Website indicated above. Many internships are open to students of all years.

(e) **Loan of Materials Related to Finding Employment, and Newspaper Browsing Corner**

Employment-related materials can be borrowed from the Career Services Section for one week. The newspaper browsing corner in front of the office offers the Nihon Keizai Shimbun, the Nikkei Sangyo Shimbun, and corporate brochures.

(3) University Referral System

SFC has its own university referral system primarily for students who plan careers in technology. In this system, referral categories are set up according to job type such as R&D, system engineer, network technology, etc., and students selected through university screening will receive an official referral in the name of the dean of the undergraduate faculty or graduate school. This system offers a variety of merits, such as a shortened job hunting period and matching with preferred department at time of recruitment. On the other hand, those selected to receive referrals cannot defer once they are chosen. The schedule (in Japanese only) for the university referral system is posted on the Career Services Section page of the Keio University Student Website every year around December.

(4) Support for Students Who Wish to become Civil Servants in Japan

The following support is provided for students who wish to join Japan's civil service:

- Orientation events and information sessions on individual ministries and agencies
 - Financial support for civil service mock examination fees
 - Procedures for registering with the Keio Institute of Law and Politics at the Keio University Faculty of Law
- Students who plan to take courses at the Institute can apply at our office for registration.

4 Other Services

(1) Center for Physical and Mental Wellness

- (a) Student Counseling Section <https://counseling.sfc.keio.ac.jp/english.html>

If you are experiencing any problems on campus, please feel free to visit the Student Counseling Section of the Center for Physical and Mental Wellness for advice and consultations. Specialist counselors can provide assistance regarding not only student life, but also personal issues and other concerns. Counseling in English is also available.

- (b) Health Services Section <http://www.hcc.keio.ac.jp/en/>

The Health Center (located within the Center for Physical and Mental Wellness) provides assistance with health management, health education, and environmental health to students, faculty, and staff members. Health consultation and first aid are provided free of charge. The Shonan Fujisawa Clinic, also located in the Health Center, provides medical consultation.

(2) Media Center (Library)

<https://www.lib.keio.ac.jp/en/sfc/>

The SFC Media Center offers comprehensive support for study, education, and research, including books, periodicals, e-journals, e-books, and databases, as well as equipment such as 3D printers in the Fab Space or AV equipment, and facilities such as sound recording and video shooting studios. It also provides an information environment for computer equipment and networks in cooperation with the Information Technology Center.

(3) Information Technology Center (ITC)

https://www.sfc.itc.keio.ac.jp/en/top_sfc.html

The Shonan Fujisawa Information Technology Center (ITC) handles the installation and management of computers, performs other related tasks requiring administrator privileges, and provides students with related information.

5 Websites and E-mails

Latest announcements and important notices will be provided through websites and e-mail messages, so please check these on a daily basis. The university will not be liable for any damages or disadvantages caused by having overlooked announcements.

In addition, you will need to use certain websites to register for courses or participate in classes; you may also be required to use some websites when carrying out other procedures or making applications.

For details on functions and usage protocols for respective websites and e-mail services, please refer to the relevant user guide or manual in advance.

(1) keio.jp portal

This website provides an integrated menu of various services offered by the Keio Single Sign-On System.
URL: <https://portal.keio.jp/>
ID/Password: Keio ID/Password

(2) Keio University Student Website

This portal site provides various types of information for current Keio University students. The information that has to date been contained in the SFC GUIDE is now being made available on the Keio University Student Website.
URL: <https://www.students.keio.ac.jp/en/>

(3) SFC Online Learning System (SOL)

This web system provides class support and is used by the Faculty of Policy Management, Faculty of Environment and Information Studies, and Graduate School of Media and Governance.
URL: <https://sol.sfc.keio.ac.jp/>
ID/Password: CNS account/Password

(4) E-mails

Important notices from the university may be sent to your CNS e-mail address (@sfc.keio.ac.jp) or keio.jp e-mail address (@keio.jp), so please check your e-mail regularly.
In addition, please use your CNS e-mail address or keio.jp e-mail address when contacting faculty members or university offices via e-mail. The faculty member or university office may not be able to respond if you contact them from another e-mail address.

Memo

[illegible]

2 Course Registration

1 What Does It Mean to “Register for a Course”?

Registering for courses means that students choose courses specified by the undergraduate faculty and learn the subjects in order to earn credits. When registering for courses, students must take into account the number of credits they have earned so far, their requirements for advancement or graduation, and the timetable and syllabus of each course.

- (1) Course registration takes place at the beginning of each semester. Students attend the courses they have registered for.
- (2) Grades are given for the registered courses. Each course has its own method for grade assessment such as final exams, papers, in-class examinations, etc.
- (3) Grades for registered courses are announced in the form of a grade report. If the grade meets the requirement for passing the course, credits will be given.

Taking into consideration the number of credits earned, students will plan what courses to take in the following semester. Students can advance to the next year or graduate by accumulating credits and meeting the designated requirements.

2 Course Registration Process

Through course registration, students choose which courses they will be taking and confirm their academic intentions. If courses are not registered for within the specified period, the student will be regarded as having no intention to study. Under Article 188 of the University Undergraduate Rules and Regulations, the student will then be subject to withdrawal from the University. Carefully read the following description of the course registration process so that you do not make any errors.

<p>Spring Semester Around March 10 onward</p> <p>Fall Semester Around September 5 onward</p> 	<p>(1) Syllabus Viewing and Confirmation of Student Screening Information, etc.</p> <p>Referring to the syllabus and timetable, select courses to register for in the upcoming semester. The syllabus contains course descriptions, information on the grading system, limit to the number of students, and more. Some courses require prior knowledge, skills, prerequisite and/or recommended courses. Make sure you read the information on the syllabus carefully before registering for a course.</p> <p>A CNS account is necessary to view the syllabus.</p> <p>◆Timetable and syllabus: https://www.students.keio.ac.jp/en/sfc/pmei/class/registration/</p>
<p>Spring Semester Mid-March to early April</p> <p>Fall Semester Mid to late September</p> 	<p>(2) Student Screening and Confirmation of Results</p> <p>Student screenings are held before the first class for many courses. Apply for a student screening, and make adjustments to your course load according to the results. The main ways student screenings are conducted are described below.</p> <p>(a) Student Screenings</p> <p>If you wish to register for courses that have student screenings, please complete the student selection entry. Results will be announced at a later date. Be sure to confirm details on the keio.jp portal or Keio University Student Website.</p> <p>(b) English Pre-registration System https://vu5.sfc.keio.ac.jp/english-reg/</p> <p>Drawings based on reservations made beforehand on the English Pre-registration System will be held for Project English (A–C) and SFC Gateway English. Courses that may be registered depend on the student's TOEFL score. You cannot register for courses without prior submission of a TOEFL score.</p> <p>(c) Registration and Drawing for Preferred Class for Fundamentals of Information Technology Courses https://itclass.sfc.keio.ac.jp/classreg/</p> <p>Class registration and screening will be held for Fundamentals of Information Technology courses such as Fundamental of Information Technology 1.</p> <p>(d) Seminar (Kenkyukai)</p> <p>In principle, screenings for Seminars begin in the semester prior to the semester you wish to register for them, so students planning to take Seminars should check the schedules online as soon as the syllabus becomes available.</p>

<p>Spring Semester Early April onward</p> <p>Fall Semester Late September onward</p>	<p>(3) Course Registration</p> <p>You must register for all courses that you take. Make sure that you refer to “3. Course Registration Details” that starts on p. 16. Allow plenty of time for course registration, and if you have any questions, contact the SFC Academic Affairs Office within the course registration period.</p> <p>(a) Accessing the “Course Registration” Screen</p> <p>Register after carefully reading the below page on important points and the registration process.</p> <p>◆Registration Manual: https://www.students.keio.ac.jp/en/sfc/pmei/class/registration/</p> <p>(b) Saving the Registration Complete Page</p> <p>After registering for a course, a message will appear on the screen if there is an error. Make sure that all courses are registered correctly. You can make changes to registration as many times as you like during the registration period, but are not permitted to add or remove courses for any reason whatsoever after it ends. Make sure that there are no errors in your courses or fields after you finish registering.</p>
<p>Spring Semester Late April</p> <p>Fall Semester Mid-October</p>	<p>(4) Course Registration Confirmation Period</p> <p>Be sure to check if registration was completed correctly by comparing the Registration Complete page you saved during course registration to the course registration details on the “View Registered Courses” page. If there are any discrepancies, please check with the SFC Academic Affairs Office.</p>
<p></p> <p>Spring Semester Late April</p> <p>Fall Semester Mid-October</p>	<p>(5) Course Registration Amendment Period (applicable students only)</p> <p>Amendments to errors in course registration are accepted in this period only for those who are applicable. Those who are applicable will receive a message in either of the columns for “Correction Required,” “Confirmation,” or “Information” (in mid-April for the Spring Semester, or mid-October for the Fall Semester).</p> <p>In the case that the student does not make amendments during the course registration amendment period, the error will be amended by the Academic Affairs Office. The University will not be held accountable for any disadvantage incurred by a student who did not carry out the necessary process during this period.</p>
<p>Spring Semester/First Half of Spring Semester Courses Late April</p> <p>Second Half of Spring Semester Courses Mid-June</p> <p>Fall Semester/First Half of Fall Semester Courses Late October</p> <p>Second Half of Fall Semester Courses Mid-December</p>	<p>(6) Course Cancellation Period</p> <p>You may cancel courses you have registered for. However, some courses cannot be cancelled. Grades will not be given for cancelled courses. Additional courses may not be registered for.</p> <p>* To see courses that are not allowed to be cancelled, check the Keio University Student Website.</p> <p>* Year-long courses and set courses need to be cancelled during the course cancellation period for Spring Semester/First Half of Spring Semester Courses.</p> <p>Log in to keio.jp portal → Class → Course Registration → Course Cancellation</p>

3 Course Registration Details

(1) Important Notes on Course Registration

Applying for student screenings and registering for courses are different processes. You can take courses that you were selected through student screenings only when you completed registration for those courses. If you do not correctly register for courses, you cannot take those courses even if you were selected through the student screenings.

- (a) Students planning to register for courses other than those offered by the Faculty of Policy Management and the Faculty of Environment and Information Studies should read “5. Cross-registration Courses” on p. 21 carefully.
- (b) Courses cannot be added or deleted after the course registration period has ended. Credits cannot be earned for courses that have not been registered for.

(2) Maximum Number of Credits that may be Earned in a Single Semester

The number of credits that may be earned in a single semester is as follows:

Maximum number of credits required for advancement and graduation	20 credits
Maximum number of credits including those for Optional Subjects	30 credits

However, the courses listed below will not be counted toward the maximum number of credits that may be earned:

Physical and Mental Health for Campus Life, Physical Education 1, Physical Education 2, Physical Education 3, Physical Education 4, Physical Education 5, Special Research Project A, Special Research Project B

Also, since courses with transferable credits earned before entering the Master’s Program are Optional Subjects, credits for these courses will not be included in the maximum number of credits (20 credits) required for advancement and graduation.

If you exceed the upper limit of courses you can register for in the semester, please be aware that courses that carry excess credits may be deleted.

(3) Fields

Fields are course categories based on the University Undergraduate Rules and Regulations. Refer to the “Courses, Number of Credits, Fields” on p. 30-31. Courses offered by the Faculty of Policy Management and the Faculty of Environment and Information Studies are all assigned “Fields.” When a course is registered for a field that corresponds with the course is automatically assigned to it (Column A registration).

Courses that have their field automatically registered (Column A registration)	Fields
• Courses offered by the Faculty of Policy Management and the Faculty of Environment and Information Studies (exception below)	p. 30-31 Refer to the “Courses, Number of Credits, Fields” chart
• Program Courses offered by the Graduate School of Media and Governance (“Transferable Credits Earned Before Entering the Master’s Program” on p. 21)	Optional Subjects
• Short-term Study Abroad Courses Offered by the International Center (refer to p. 21)	Language Communication courses (or Optional Subjects)

When registering for courses that do not have assigned fields such as courses offered by other faculties, research institutes or centers, or taking courses as Optional Subjects, fields need to be designated when the courses are registered. Make sure you register correctly by referring to the chart below to check which fields courses can be designated as.

Courses that require a field to be designated	Fields
<ul style="list-style-type: none"> • Course credits not required for advancement or graduation • Courses offered by research institutes or centers (excluding courses offered by the International Center at Mita Campus) • Other courses for which there are specific instructions (“(c) Optional Subjects” on p. 17) 	Optional Subjects
<ul style="list-style-type: none"> • Courses offered by faculties other than the Faculty of Policy Management and the Faculty of Environment and Information Studies • Courses offered by the International Center at Mita Campus (excluding Short-term Study Abroad Courses)(excluding Short-term Study Abroad Program) 	Courses Offered by Other Faculties, etc.

(4) Courses

- (a) Prerequisite Courses and Course Registration Requirements

Although it may not be specified in the syllabus, the following courses have requirements such as earning credits for prerequisite courses, etc. that must be fulfilled before the semester they are taken.

Course Names / Fields	Prerequisite Courses / Requirements
Physical Education 2 Physical Education 3	Credits earned for Physical Education 1
Physical Education 4 Physical Education 5	Credits earned for Physical Education 3
Fundamentals of Information Technology courses (excluding Fundamentals of Information Technology 1)	Credits earned for Fundamentals of Information Technology 1 Except for Fundamentals of Information Technology 2, these courses also require passing of a typing examination
Graduation Project 2	Credits earned for Graduation Project 1 Excluding those continuing Graduation Project 1 while studying abroad

(b) Class Designated Courses (courses that depend on your “class”)

Class Designated Courses are courses that have their time schedule determined by your “class.” New students should register for the courses or fields listed below in their first semester. These courses do not require student screenings although it may be written so in the syllabus.

Course Names / Fields	Possibility to Change Classes
Physical and Mental Health for Campus Life	New students cannot change classes in their first semester.
Physical Education 1	[New students in their first semester] cannot change classes. [Students retaking the course] can register only a full-time faculty member’s class in the Spring Semester, or the class for students retaking the course held in the Fall Semester. Be sure to attend the first class and obtain permission to take the course.
Fundamentals of Information Technology 1	[New students in their first semester] who are requesting a class change should apply through the website below. In some cases, a drawing will be held. https://itclass.sfc.keio.ac.jp/classreg/ [Students retaking the course] who will take the class for students retaking the course should apply for a student screening. If the number of students has not reached the limit after the screening is held, additional application may be accepted for both the class for students retaking the course and the class for new students. Apply through the website below: https://itclass.sfc.keio.ac.jp/classreg/ Please note that additional application will be accepted only for the class for new students in the Spring Semester as there will be no class for students retaking the course.
Language Communication courses	New students cannot change classes in their first semester. However, new students who pass a language placement test may register for these classes. The upper limit of credits that new students can take in their first semester is four (one language) excluding Russian and Italian. From the second semester on, follow the instructions in the syllabus and apply for a student screening.

(c) Optional Subjects

Credits earned from Optional Subjects are not counted toward credits required for advancement to the next year or graduation.

The courses below can only be registered as Optional Subjects. Courses must be registered by selecting the “90-01-02 Optional Subjects and Others” field at the time of registration.

Credits earned from Optional Subjects cannot be converted at a later date to credits required for advancement to the next year or graduation, and vice versa.

Course Names, etc.	Designated Fields
Program Courses in the Graduate School of Media and Governance	None
Courses you already have earned credit from	90-01-02 Optional Subjects and Others
Courses offered by research institutes and centers (excluding courses offered by the International Center at the Mita Campus and those offered by the GIC Center at Hiyoshi Campus)	
Duplicate courses (when taking multiple in the same semester) (see “(d) Duplicate Courses”)	
Courses exceeding the maximum number of credits toward advancement and graduation that can be earned in a single semester (p. 16)	
Other courses with specific instructions	

Note that the following courses cannot be taken as Optional Subjects:

SFC Gateway English, Basic and Intensive in the Language Communication courses*, Physical and Mental Health for Campus Life, Physical Education 1, Physical Education 2, Physical Education 3, Physical Education 4, Physical Education 5, Graduation Project 1, Graduation Project 2

(d) Duplicate Courses

In principle, each course can only be taken once for credit to count toward advancement to the next year or graduation, even if the instructor is different. If you take duplicate courses in the same semester, or plan to retake a course you have earned credits from in the past, the extra course can only be registered as an “Optional Subject.”

However, the following courses can be taken multiple times for credit to count toward advancement to the next year or graduation:

Project English A/B/C/D, Japanese Intensive Elementary 1/2, Japanese Intensive 1/2/3/4, Skills and Contents in the Language Communication courses, Study Abroad, Seminar A, Seminar B, Special Research Project A/B, and Graduation Project 1 (only when the mentor is changed)

In addition, the below chart indicates courses that will be considered to be the same course even though a change has been made in the course name:

New Course Names	Previous Course Names
Fundamentals of Life Science Laboratory	Fundamental Biology Laboratory
Innovation and Marketing Research	Diffusion of Innovations and Marketing Research of Information Technology Services
Data Business Creation A	Data Business Creation
Data Business Creation B	Data Business Creation
Civil Code (Contracts and Torts)	Civil Law (Property)
Civil Code (Family and Inheritance)	Civil Law (Family Law)
Tonal Harmony 1	Fundamentals of Digital Music
Tonal Composition 1	Music and Cognition
Beyond Blockchain Basics	Beyond Blockchain
Beyond Blockchain Advanced	Beyond Blockchain
Data Science for Bioinformatics	Introduction to Bioinformatics
Data Society and Business Model	Intellectual Property and Business Models
Basic Exercise in Protecting Information Systems against Security Threats	Exercise in Project Based Learning K
Advanced Exercise in Incident Handling	Advanced Exercise in Project Based Learning F
Advanced Security Workshop in Smartphone Security	Advanced Security Workshop C
BasicSecCap Exercise in Project Based Learning I	Exercise in Project Based Learning I
BasicSecCap Advanced Exercise in Project Based Learning E	Advanced Exercise in Project Based Learning E
BasicSecCap Advanced Security Workshop D	Advanced Security Workshop D
BasicSecCap Advanced Security Workshop E	Advanced Security Workshop E
Earth System A	Earth Systems

4 Important Notes on Course Registration for Specific Courses

(1) Physical Education <https://wellness.sfc.keio.ac.jp/>

(a) Wellness System

This system is used for making reservations for physical education classes, and submitting notes and papers for physical education courses.

(b) Physical Education 2/3

After passing Physical Education 1, be sure to register for both Physical Education 2 and Physical Education 3 at the same time in the following semester. Go to the course registration page, and from “Other” under “Day of the Week,” select and register for Physical Education 2 and Physical Education 3. Course registration will be valid for these two courses until credits have been earned for them, so there is no need to re-register for them later on.

Use the Wellness System to make reservations for the classes you will attend. Each course requires attending class 15 times and submission of a report in order to earn credits.

(c) Physical Education 4/5

Students must have earned credits for Physical Education 3 by the previous semester in order to take Physical Education 4/5. To register for these courses, go to the course registration page, and from “Other” under “Day of the Week,” select and register for Physical Education 4 and Physical Education 5. Course registration will be valid for these two courses until credits have been earned for them, so there is no need to re-register them later on. However, you cannot cancel registration for Physical Education 4 or 5 outside of the semester in which you registered for them.

Use the Wellness System to make reservations for the classes you will attend. Each course requires attending class 15 times and submission of a report in order to earn credits.

(2) Language Communication Courses <https://language.sfc.keio.ac.jp/>

(a) Language Placement Test (excluding English, Arabic, and Malay-Indonesian)

Language placement tests are held during the orientation period each semester. Except for Basic 1 and Intensive 1, a language placement test may be required before a course can be registered. You can check the examination schedule on the keio.jp portal on the day of the grade announcement for the prior semester, or on the Language Communication courses website.

(b) Contents Courses

Courses with “language” included in the course name, and a portion of courses held in English or Japanese, can be taken as a Language Communication (xx language) Contents Course. (Refer to the “Courses, Number of Credits, Fields” chart on p. 30-31)

Courses taken as Contents Courses will appear as Fundamental Subjects (Language Communication courses) regardless of the original course field. Courses that may be taken as Contents Courses have the Contents Courses name listed together with the original course name in the syllabus.

Example: “Theory of Languages (German)” Advanced Subjects (Series of Policy Management)

“German Contents” Fundamental Subjects (Language Communication courses)

Please note that to take a course as “Japanese Contents,” prior permission must be obtained from the Japanese Language Lab (it is different from student screenings).

(c) Study Abroad Courses

These courses are held during the spring or summer break at overseas educational institutions. They are Study Abroad A (4 credits) and B (2 credits), and Intensive Course held overseas (4 credits). For details, check the website and language lab for each language. You must register for these courses in the semester immediately following participation, and they may not be cancelled. If a temporary leave of absence or study abroad is planned for the semester immediately following participation, be sure to consult with the Academic Affairs Office when applying for a temporary leave of absence or study abroad.

(d) Japanese Intensive

Up to 24 credits earned from Japanese Intensive may be included in the credits required for advancement or graduation.

(3) Data Science Courses

While it is recommended that students earn at least 2 credits from Data Science 1 before advancing to Data Science 2, both courses may be taken simultaneously.

(4) Fundamentals of Information Technology Courses <https://itclass.sfc.keio.ac.jp/guide/en/>

Fundamentals of Information Technology 1 is a required course. After earning credits for Fundamentals of Information Technology 1, Fundamentals of Information Technology 2 or other Fundamentals of Information Technology courses may be taken according to the student’s level.

(5) Seminar (Kenkyukai)

There are two types of Seminars (Seminar A and Seminar B), and the type differs by faculty member.

Courses	Class Periods Per Week	No. of Credits	Approx. No. of Students
Seminar A	2 class periods/week	4 credits	35 students
Seminar B	1 class period/week	2 credits	15 students

Up to 6 credits, including those taken as Optional Subjects, can be registered for per semester. In principle, students can register for Seminars from their second year. However, students in their first year can register for one Seminar per semester only if the faculty member in charge grants special approval.

The syllabus for Seminars will become available ahead of the other lecture courses in the semester preceding the semester in which the Seminar is held. Each Seminar has its own student screening, so students should check the syllabus for the screening process and dates.

(6) Graduation Project

During their fourth year, students create a Graduation Project, such as a written thesis or a work, as a culmination of their learning at SFC centered on the Seminar. One of the requirements for graduation is to register and earn credits for Graduation Project 1 during the first semester of the fourth year, and Graduation Project 2 during the second semester of the fourth year.

The faculty member overseeing the Graduation Project is called the Graduation Project mentor. In order to take a Graduation Project course, the student must apply for and receive approval from a mentor during the designated period. While consulting with the Graduation Project mentor, the student will create a research result such as a thesis or work, and have it assessed and approved.

(a) Fulfilling Aspect Requirements (by the first semester of the third year)

In order to apply for a Graduation Project mentor, a student must have earned at least 4 credits in one of the “Aspects” designated by the mentor, in the semester prior to the application, that is, in principle, by the first semester of the third year. In addition, there may be other requirements to be fulfilled, so start course planning early to fulfill your “Aspects” and other requirements.

You can check the “Aspects” specified by Graduation Project mentors online such as the keio.jp portal.

(b) Graduation Project Mentor Application (in principle, in the second semester of the third year)

In principle, the application process begins at the end of the first semester of your third year (around September or March). You can apply for the preliminary application, first-round application, and second-round application online and also view the results. The application details are provided on the keio.jp portal or Keio University Student Website.

*Preliminary Application

There is no selection screening for preliminary applications. Register the Graduation Project mentor of your choice before the course registration period and create your course registration plan while communicating with them.

1. At least 4 credits must be earned in one of the “Aspects” designated by the mentor by the semester prior to application (in principle, by the first semester of the third year).
2. Other requirements designated by the mentor must be fulfilled.

Amendment forms must be used to make amendments. Amendment forms can be downloaded from the keio.jp portal.

* If you do not register for Graduation Project 1 in the semester after your application for a faculty member to act as your mentor was accepted, your acceptance will be cancelled and you will have to apply again.

(c) Graduation Project 1 (the first semester of the fourth year)

In Graduation Project 1, students make plans and preparations for completing the Graduation Project 2 result work in the following semester. Credits from Graduation Project 1 must first be earned in order to take Graduation Project 2.

If changing a Graduation Project mentor after having earned credits for Graduation Project 1, you must register for the Graduation Project 1 again.

For students who plan to study abroad in the first semester of the fourth year, if an Application for Study Abroad is approved by the Faculty Board and the necessary processes before and after study abroad are completed, Graduation Project 2 can be registered for without earning credits for Graduation Project 1. For details, contact the SFC Academic Affairs Office.

(d) Graduation Project 2 (the second semester of the fourth year)

Students create a result work, such as a thesis or work, and present it for evaluation and assessment. Only students who have earned credits for Graduation Project 1 can take Graduation Project 2. Credits for Graduation Project 2 must be acquired to graduate.

In order to earn credits for Graduation Project 2, a result work must be submitted during the designated period. Details are provided on the keio.jp portal.

As a rule, submitted result works are presented within the University. Pass/fail is reflected in the grade given for Graduation Project 2.

(7) Special Research Projects

Special research projects are held by faculty members in charge of Seminars during summer or spring breaks to carry out research that cannot be conducted during the semester.

Students must register for the special research project in the semester immediately after attending it, and these courses cannot be cancelled.

One special research project, either Special Research Project A or Special Research Project B, can be registered for in a single semester for credit required for advancement to the next year or graduation. To register for multiple special research projects, all courses except for the first one should be registered as Optional Subjects.

If a temporary leave of absence or study abroad is planned for the semester immediately following participation, be sure to consult with the Academic Affairs Office when applying for a temporary leave of absence or study abroad.

(8) Field Research <https://www.students.keio.ac.jp/en/sfc/pmei/class/registration/>

Credits to be counted toward advancement to the next year or graduation can be earned through fieldwork or internships related to your individual research theme that take place during spring and summer breaks (in Japan or overseas). Before the activity, you must first submit research plan documents and obtain approval for the activity content. Field Research 1 or Field Research 2 must be registered in the semester immediately after the break during which you did fieldwork or had an internship, and these courses cannot be cancelled.

For details on the application standards, activity period, assignments, etc., please check the Keio University Student Website above and the keio.jp portal.

5 Cross-registration Courses

(1) Transferable Credits Earned Before Entering the Master's Program

You can register for “Program Courses” that are accepted by the Graduate School of Media and Governance (excluding courses held in parallel with the undergraduate faculties) and some courses offered by the Graduate School of Human Relations, the Graduate School of Law, and Law School by going through the required process.

(a) Graduate School of Media and Governance

Applicable courses: Program Courses (excluding courses held in parallel with the undergraduate faculties)

Students can register for Program Courses (excluding courses held in parallel with the undergraduate faculties) offered by the Graduate School of Media and Governance while enrolled as an undergraduate, and if they advance to the Graduate School of Media and Governance after graduation, up to 8 credits earned from these courses may be counted as credits required for completing the master's program. The process for course registration is as follows:

- Download the “Application for Undergraduates to Register Master's Program Courses (大学院先取科目履修申請書)” after checking the keio.jp portal.
- On the course registration page, search for the course from the Graduate School of Media and Governance timetable and register in “Column A.” Such courses will automatically become “90-09-02 Optional Subjects Courses Offered by the Graduate School of Media and Governance Program Courses.” For details regarding the procedure for having credits recognized at the Graduate School of Media and Governance after advancement to the Graduate School, refer to the “Guidebook for Students of the Graduate School of Media and Governance.”
- At the first class meeting, obtain an approval seal (or signature) from the faculty member in charge of each course on the “Application for Undergraduates to Register Master's Program Courses (大学院先取科目履修申請書)” and submit it to the Academic Affairs Office by the deadline specified on the keio.jp portal.

(b) The Graduate School of Human Relations, Graduate School of Law, Law School, and Others

Visit the website of each graduate school for details.

(2) Short-term Study Abroad Courses Offered by the International Center

The International Center offers courses during the summer and spring break periods each year.

For details, refer to “学内機関主催の短期プログラム (Short-Term Programs)” (in Japanese only) under the “海外への留学 (Study Abroad)” tab on the International Center website (<https://www.ic.keio.ac.jp/>) and also attend the program orientation session held at the beginning of each semester.

To search for courses offered by the International Center, go to the course registration page. Select “Other” in the “Day” field in the International Center Class timetable. Courses should be registered in “Column A.” The “fields” that students can register for differ by course, and the courses listed below are automatically assigned “fields” as follows:

Course Names	Fields
Summer School at Christ Church College, Oxford	Language Communication courses (English)
Summer School at Downing College, Cambridge	
Summer School at College of William And Mary	
Summer School at University of Notre Dame	
Spring School at Sciences Po: European Studies	
Spring School at Singapore Management University	
Spring School at The University of Sydney	
Spring School at Tufts University	
Summer School at Lincoln College, Oxford	Optional Subjects

※ Offered courses differ by academic year. Check the International Center website for details (<https://www.ic.keio.ac.jp/>).

(3) Courses Offered by the Student Affairs Center

You can register for Safety, Health and Wellness course offered by the Student Affairs Center online in the Spring and Fall Semesters as Optional Subjects. Visit the Keio University Student Website for details.

(4) Courses Offered by the Teacher Training Center

You can participate in the Contemporary Study on Teacher course, Basic Theory of Education course, and School Curriculum Studies course offered by the Teacher Training Center even in your first year as long as you are in your second semester or above. You should, however, check the notice boards, etc., to confirm which specific classes are accepting participants, since these differ depending on the academic year (for example, you are allowed to only participate in classes held during a particular semester and on specified days and class periods and not others even if they are named the Contemporary Study on Teacher course). Please note that if you are a first-year student at the Shonan Fujisawa Campus registering for these courses, in principle, you are required to register for them in the semester in which you participate in them.

Teacher Training Courses (in Japanese only)

Please refer to the Japanese version of the SFC Guide.

(5) Transfer of Credits Earned from Courses Offered by the National Institute of Technology, Tsukuba College/the Faculty of Agriculture at Yamagata University

Please check the keio.jp portal for details.

(6) Transfer of Credits Earned from Courses Offered by International Christian University

Please check the keio.jp portal for details.

(7) Courses Offered by Other Faculties, Research Institutes, etc.

Important Points

Registration methods and periods for courses offered by other faculties, research institutes, etc., may differ from those for courses offered by the Faculty of Policy Management and the Faculty of Environment and Information Studies. Be careful when registering for these courses.

(a) Courses that May be Taken

Be sure to confirm the course information, description, and syllabus for each course before registering. Courses offered by other faculties, etc. may be taken only if the following two requirements are met:

1. The Faculty Offering the Course Allows Students from Other Faculties to Take Courses

Courses listed on the chart “Subjects with Restrictions for Students from Other Faculties and Graduate Schools: Undergraduate” on the Keio University Student Website cannot be taken. Make sure to check this list as well as the course registration information for each faculty posted on the Keio University Student Website and keio.jp portal.

Some courses have restrictions on your affiliation and/or student year. If you are not in the correct student year, you will be unable to take the course even if it is not a “Subject with Restrictions.” Some faculties have courses with restrictions not listed on this chart, and there may also be some courses offered as Optional Subjects to students from other faculties. Students should gather necessary information through the syllabus, Keio University Student Website, keio.jp portal, and announcements on the notice boards of each faculty, etc.

2. Permission of the Faculty Member in Charge of the Course

Attend the first class meeting and obtain permission from the faculty member in charge of the course. If the first class meeting is cancelled, or if permission could not be obtained during the Spring Semester for a course held in the Fall Semester, obtain permission when the first class meeting is held.

(b) Course Registration

You can only register for courses described in “(a) Courses that May be Taken” above. Make sure that you select the appropriate field (refer to “Fields” on p. 16) and register within the registration period.

*Details regarding the registration for courses offered by other faculties, research institutes, etc., are provided on the

keio.jp portal.

*Fall Semester courses offered by other faculties, research institutes, etc., that you register for in the Spring Semester must be cancelled in the Fall Semester course cancellation period. Amendments may be permitted only in the case of unavoidable circumstances, such as if SFC class designated courses or required courses overlap with these courses. In such cases, contact the Academic Affairs Office by the end of the course registration period.

*Some courses cannot be registered online. Register with plenty of time beforehand and check with the SFC Academic Affairs Office during the course registration period if you cannot register online. Inquiries will not be entertained after the course registration period ends.

(c) Fields

You must choose the appropriate field and register it. Please refer to “Fields” on p. 16.

(d) Student Year for Course Registration

Other faculties have student year restrictions for registering for certain courses. These restrictions should be followed. In particular, courses offered at the Mita and Yagami campuses require that students have at least advanced to their third year. (However, the Faculty of Letters at Mita Campus requires students to have advanced to at least their second year.)

For Common Courses at Hiyoshi Campus, student year designations for course registration may differ according to the faculty to which the student belongs. Find the timetable for your student year (e.g., the timetable for first-year students if you are a first-year student) from among the timetables for the main faculty (faculty overseeing the course) of the course to be taken.

(e) Period-related Restrictions

If you intend to take a course at SFC and a course offered at another campus including those offered in the Toho Building, they cannot be registered for in consecutive course periods. There must be an interval of at least one class period to allow time for commuting between campuses.

(f) Credits and Grades from Year-long Courses/Set Courses

Credits for year-long courses are divided equally between the Spring Semester and the Fall Semester to fulfill credit requirements. Credits and grades for year-long courses are given at the end of the Fall Semester only and will not be divided by semester.

Set courses are conducted over the Spring and Fall semesters as a set (or pair of courses). Therefore, registration in only one course of a set is not possible. Grades for set courses are given collectively at the end of the Fall Semester. However, when the set of courses are held in the same semester, grades will be given at the end of the said semester.

(g) Course Cancellation

Course cancellation for year-long courses, set courses, and Spring Semester courses must be done in the Spring Semester course cancellation period, and for Fall Semester courses in the Fall Semester course cancellation period. However, you cannot cancel courses that are listed in “(Undergraduate faculties) Courses for which cancellation by students of other undergraduate faculties/graduate schools is not permitted.” Make sure to check this list as well as the course registration information for each faculty posted on the Keio University Student Website.

Also, you cannot cancel or make amendments to year-long or Fall Semester courses in the Fall Semester course registration or amendment periods, if the courses were registered for in the Spring Semester.

<(Undergraduate faculties) Courses for which cancellation by students of other undergraduate faculties/graduate schools is not permitted>

Visit the Keio University Student Website below for the newest information and updates:

<https://www.students.keio.ac.jp/en/com/class/registration/other-faculties.html>

Points of caution

1. Some courses may have restrictions on their ability to be cancelled. Make sure to read the course descriptions and syllabus carefully before registering for courses.
2. Please ensure to check the latest information, including postings, as new restrictions may apply to the cancellation of registered courses.
3. Please note that there may also be restrictions depending on the field or your student year.

(8) Courses Offered by Research Institutes or Centers

The fields for each course offered by other research institutes or centers are shown below. Make sure that the field is appropriate before registering (p. 16).

*Register for these courses in the same way as those offered by other faculties.

*In the case that the below courses are held at the same course period and by the same professor (a course held in parallel with another faculty), you can register for those courses as courses offered by other faculties (the field will then be different. Example: The course “Modern Japan and Yukichi Fukuzawa” offered at the Fukuzawa Memorial Institute for Modern Japanese Studies is listed as a general education course at the Faculty of Economics on the Hiyoshi timetable).

Courses Offered by Other Research Institutes or Centers

Research institutes or centers that offer courses	Fields
International Center	04-01-01 Courses Offered by Other Faculties, etc. 90-01-02 Optional Subjects and Others
GIC Center	
Research Center for Liberal Arts	90-01-02 Optional Subjects and Others
Fukuzawa Memorial Institute for Modern Japanese Studies	
Research Center for Foreign Language Education	
Institute of Cultural and Linguistic Studies	
Institute of Oriental Classics (Shido Bunko)	
Health Center	
Institute for Journalism, Media & Communication Studies	
Global Research Institute	
Institute of Physical Education	
Teacher Training Center	
Student Affairs Center	
Museum Commons	
Art Center	

6 Other

The upper limit of courses one can register for in the Bachelor's-Master's Four-Year Integrated Education Program is 24. Make sure you go through the process that is described in the e-mail sent to you by the SFC Academic Affairs Office before the beginning of the course registration period.

University Rules and Regulations that Apply to Current Students

All current students will fall under the 2014 Rules and Regulations. Students who had been under the 2007 Rules and Regulations until the 2018 academic year now fall under the 2014 Rules and Regulations.

In spring 2014, the curriculum of the Faculty of Policy Management and the Faculty of Environment and Information Studies was renewed. SFC, which was established in 1990, celebrated its 30th anniversary in 2020, and its curriculum has been revised a number of times throughout its history. This is proof that our campus is an embodiment of the “spirit of experimentation” to “create what has yet to be.” We believe that a dynamic, practical learning-oriented intellectual search becomes possible if we are not afraid of change, face diversified and complex issues, and upgrade the curriculum itself.

Throughout past curriculum changes, what has not changed since SFC’s foundation is that students themselves design their own learning, which is centered on the Seminar (Kenkyukai). Seminars are places where students freely interact with faculty members and fellow students, learn from each other, and actively engage in the field to address problems. A unique part of SFC’s curriculum is that students can join a Seminar from their first year. There are over 100 Seminars at SFC and each engages in activities based on a unique idea or method. Activities in Seminars lead to the Graduation Project, the culmination of study at SFC, and they are an opportunity for students to arrange their sense of values and grow as a human being.

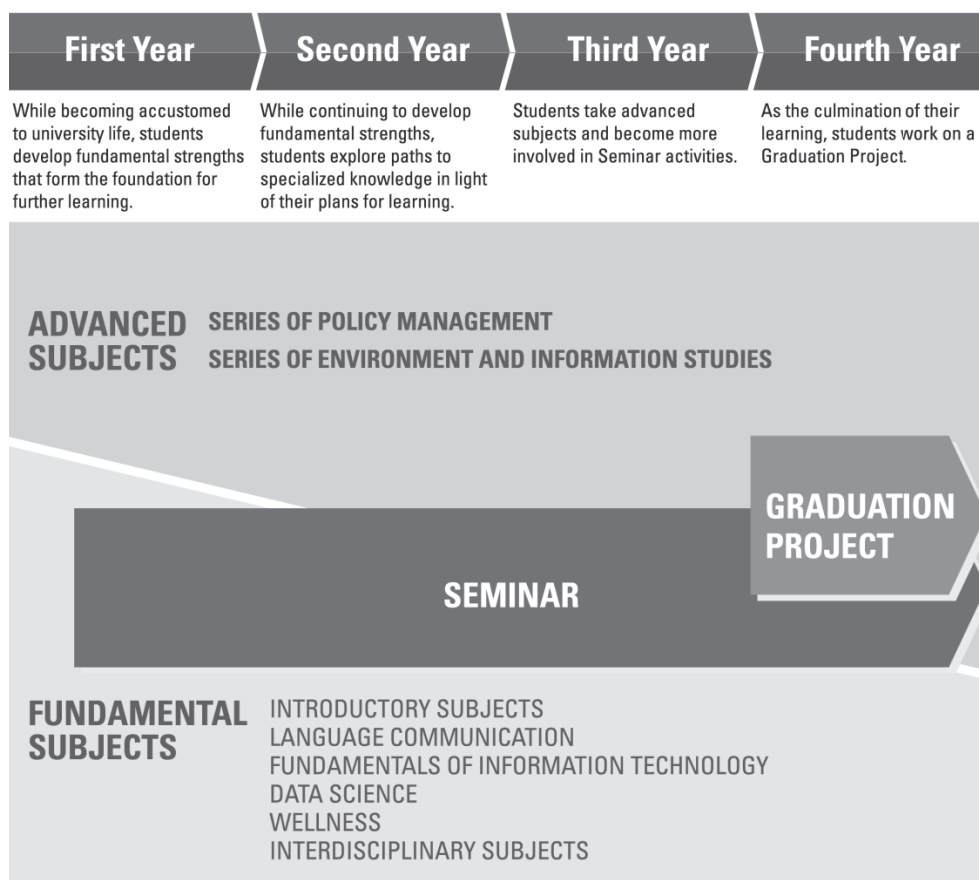

While Seminars are central to the new curriculum, further emphasis has been placed on what is essential to all SFC students—communication ability, information processing techniques, methods of research, and the importance of creating a healthy mind and body. We have also prepared a structure that allows students to learn the spirit of experimentation, discover their own potential at an early stage after entering the University, and encounter a Seminar that is appropriate for them. Also, we are actively diversifying the format of courses. For example, short-term intensive courses offer students an abundance of learning opportunities. Not only that, but students will have more flexibility when planning their four-year student life. Of course, there are also many opportunities to learn outside SFC at other Keio University campuses and throughout the world.

Before making plans to register for courses, make sure you read and understand the structure of the curriculum.

1 Curriculum

(1) Overview of SFC Curriculum

The curriculum is structured around the Seminar and the Graduation Project, while different categories of courses focus on giving students the skills and knowledge necessary to participate in these two pillars of SFC learning.

(2) Overview of Course Categories

(a) Research Seminars

Research seminars are positioned at the center of the curriculum. In order to practice the “Research-seminar-centric” concept, you are encouraged to explore various research seminars from an early stage after entering the University and find a research theme that you can pursue with passion.

- **Seminar (Kenkyukai)**

The Seminar is central to activities at SFC where faculty members and students work together on a diversity of issues as a prelude to the Graduation Project. At SFC, students do not merely learn answers to given problems. Education at SFC aims to nurture and send out leaders of the future who are able to identify problems and create methods of resolving them. Towards this goal, the Seminar at SFC goes beyond the typical seminar or study group, and many Seminars are engaged in advanced activities such as collaborative research with businesses and research commissioned by government agencies. Through participation in such research, students work on real problems in society and gain a high level of expertise, and with this in hand, they embark on their Graduation Project that will be their “fruit of designing the future” as well as a personal proposal as they advance towards the future as individuals. For this reason, the Seminar is at the core of the curriculum. In principle, you can register for up to 6 credits from Seminars each semester (Spring, Fall) from your second year. Some first-year students with excellent abilities may also register for a Seminar.

- **Graduation Project**

As a culmination of studies at SFC centering on the Seminar (Kenkyukai), all students produce a written thesis or create a work. Each student draws on the full resources of the creative, highly advanced skill set acquired at SFC to independently work towards the achievement of research results needed for graduation. These results can take the form of a thesis, other work, or notable research findings. The Graduation Project is the consolidation of a student’s research into a tangible form such as a thesis or work, and should be completed while consulting with the student’s Graduation Project mentor for at least two semesters, after which it must be evaluated and approved.

(b) Fundamental Subjects

These subjects aim to build a foundation vital to all SFC students regardless of faculty. From an early stage after entering the University, students can make course plans with the aim of acquiring the language skills, methods for thought, and techniques necessary for their Seminar and Graduation Project. Through these basic courses, some of which are required and some compulsory electives, students will continuously build on their foundations through study in fields of their individual interests.

- **Language Communication** <https://language.sfc.keio.ac.jp/>

At SFC, where importance is placed on language communication, language courses are offered not only in English but also in Malay-Indonesian, Arabic, Korean, Spanish, German, French, Chinese, Russian, Italian, and Japanese. Students can acquire true competency through Intensive courses that meet four times a week in small groups, theme-based Skill courses, and overseas language programs where they can directly experience the living language. In other words, students will attain a high level of foreign language skills that can be utilized in document research and thesis writing, debate and negotiation, and fieldwork and presentations.

- **Data Science**

Students acquire common fundamental techniques that can be widely applied to a number of fields. Studies include data acquisition, editing, and analysis methods, modeling and simulation, as well as areas in mathematical sciences such as logic, probability, and algebra.

- **Fundamentals of Information Technology** <https://itclass.sfc.keio.ac.jp/guide/en/>

Students acquire the programming skills necessary for masterfully using computers in creative endeavors. Knowledge acquired in these courses allows students to understand and utilize the fundamentals of information technology.

- **Wellness Subjects** <https://wellness.sfc.keio.ac.jp/index.php?lang=en>

Wellness subjects aim to connect mind and body, and develop students as human beings through education based on problem identification and problem solving, and they provide a place to practice the basic principles of “notice, seek, deepen, and convey.”

In “Physical Education 1,” students having varied backgrounds get to know each other through doing physical exercise together while at the same time pursue discovery of individuality in the class group. In “Physical Education 2–5,” students select individual sports to promote further self-discovery, explore and acquire body intelligence, and achieve growth as a human being. These courses are characterized by the learning of practical knowledge through lectures as well as the practice of skills.

(c) Advanced Subjects

While taking Fundamental Subjects mentioned above, students will take Advanced Subjects that will lead them into their Seminar and Graduation Project. Advanced Subjects are composed of specialized and leading-edge courses that prepare students to conduct sound research for their Seminar and Graduation Project. A structure called “Aspects” enables students to create a concrete course plan in line with the specialty and approach to research taken by the faculty member who will oversee their Graduation Project.

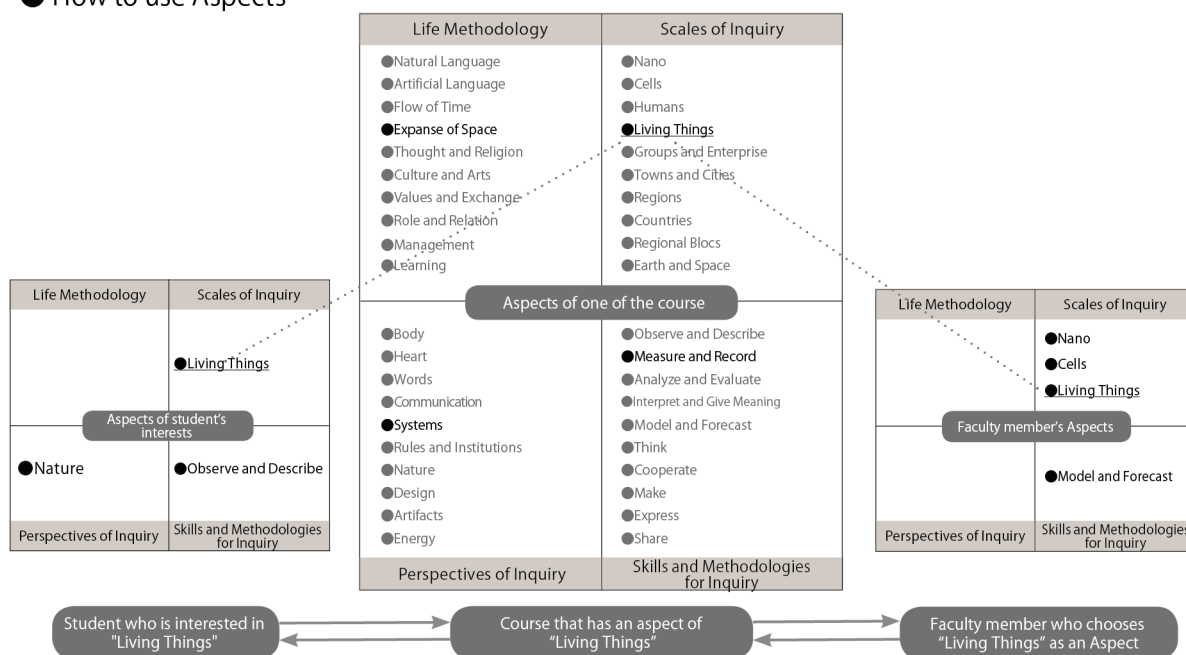

(3) Aspects

(a) What are Aspects?

Every semester, SFC offers numerous courses across a wide range of disciplines. Students can choose courses freely without being subject to many restrictions. However, due to the large number of courses, students may be unable to identify courses that truly match their needs.

“Aspects” give students a picture of how courses and Seminars relate to each other by breaking them down into their component parts (aspects). Aspects are designed to guide and help students discover Seminars and courses that may have been outside their field of vision.

● How to use Aspects

(b) Aspect Groups and Method of Use

Life Methodology	Scales of Inquiry	Perspectives of Inquiry	Skills and Methodologies for Inquiry
<ul style="list-style-type: none"> ● Natural Language ● Artificial Language ● Flow of Time ● Expanse of Space ● Thought and Religion ● Culture and Arts ● Values and Exchange ● Role and Relation ● Management ● Learning 	<ul style="list-style-type: none"> ● Nano ● Cells ● Humans ● Living Things ● Groups and Enterprise ● Towns and Cities ● Regions ● Countries ● Regional Blocs ● Earth and Space 	<ul style="list-style-type: none"> ● Body ● Heart ● Words ● Communication ● Systems ● Rules and Institutions ● Nature ● Design ● Artifacts ● Energy 	<ul style="list-style-type: none"> ● Observe and Describe ● Measure and Record ● Analyze and Evaluate ● Interpret and Give Meaning ● Model and Forecast ● Think ● Cooperate ● Make ● Express ● Share

Faculty members who are in charge of Seminars designate multiple Aspects, from a total of 40 Aspects in four groups, that relate to their research fields. Also, for Advanced Subjects and certain Fundamental Subjects, multiple Aspects that characterize those subjects have been selected. Aspects of faculty members and courses can be viewed online. Use Aspects when selecting courses or Seminars to investigate the Faculty member – Aspect – Course connections, courses having common Aspects, or connections between faculty members.

(c) Significance to the Graduation Project

In order to apply for a Graduation Project mentor in the second semester of the third year, students must satisfy the Aspects designated by the mentor by the previous semester (the first semester of the third year). For details, see "Graduation Project" on p. 20.

(4) Bachelor's-Master's Four-Year Integrated Education Program

Through this program, students can earn both a bachelor's degree in the Faculty of Policy Management or the Faculty of Environment and Information Studies and a master's degree in the Graduate School of Media and Governance in four years.

The standard length of study is six years in total—four years for a bachelor's degree and two years for a master's degree—but participation in this program gives students the opportunity to earn a bachelor's degree in three years and a master's degree in one year, for a total of four years of study. Details are provided on the keio.jp portal or Keio University Student Website.

(5) 3.5-year Early Graduation System

Students with superior achievements, such as outstanding academic grades, who have satisfied the requirements for graduation, may graduate after 3.5 years (7 semesters) of enrollment. This system aims to support those who, for example, enrolled in September and will begin working in April, or those who enrolled in April and will advance to graduate schools abroad. Details are provided on the keio.jp portal or Keio University Student Website.

(6) System for Extension of Enrollment Period

Fourth-year students who have earned the required number of credits for graduation may extend their enrollment for up to another two semesters if it does not exceed the maximum period of enrollment set forth in Article 156 of the University Undergraduate Rules and Regulations. This can be done by applying for and receiving approval for an extension of enrollment period (Article 169 of the University Undergraduate Rules and Regulations). However, all academic fees must also be paid for the extended period. Details are provided on the keio.jp portal or Keio University Student Website.

(7) GIGA (Global Information and Governance Academic) Program

Students of the Faculty of Policy Management and the Faculty of Environment and Information Studies can register for the GIGA Program courses regardless of their faculty, student year, or admission method. In addition, students can be awarded a GIGA Program Certificate (Certificate of Completion) if they apply to become a GIGA Certificate Course Student in advance and fulfill the requirements described on the Keio University Student Website. Details are provided on the keio.jp portal or Keio University Student Website.

(8) Perspectives

Since the 2017 academic year, a system called “Perspectives” has been in place to guide interdisciplinary study. The intention of “perspectives” is to introduce the academic knowledge and spread of activity which could be overlooked in a seminar activity, where you delve deeply into concrete problems and specialty fields.

Perspectives have been increased to cover an even wider area, including “Health Science (HS),” “Evidence Based Approach (EBA),” and “Student Built Campus (SBC).” For further details, access the Keio University Student Website:

<https://www.students.keio.ac.jp/en/sfc/pmei/class/registration/perspective.html>

(9) Courses, Number of Credits, Fields

Numbers inside < > under “(Details)” indicate curriculum codes. A code is assigned to all courses. See the syllabus for individual course codes (### part).

Type	(Details)	Field	Course Name The number inside () indicates the number of credits. Courses without a description of the number of credits are worth 2 credits.	Number of Credits (Required Courses)	Number of Credits (Elective Courses)
Fundamental Subjects	Introductory Subjects <B1###>	01-01-01	Policy Management Studies (1), Environment and Information Studies (1), Introduction to Keio Gijyuku Its History People and Tradition	1 ^{*1}	30
	Subjects of Language Communication <B2###>	01-02-01	SFC Gateway English (4)	8 (at least 4 credits earned from at least one language)	
		01-02-02	English (Project English A, B, C, D / Contents / Study Abroad A (4), B) Some of the Short-term Study Abroad Courses Offered by the International Center ^{*2}

2 Advancement and Graduation Requirements

(1) Students Who Enrolled in or after the 2014 Academic Year

(a) Advancing to the Second Year

Students must meet both of the following requirements in order to advance to the second year:

1. The student has been enrolled for at least two semesters since entering the University (excluding periods of temporary leave of absence) and has earned at least 30 credits (excluding credits earned in Optional Subjects).
2. The student has earned all of the following credits:

Faculty of Policy Management		Faculty of Environment and Information Studies	
Policy Management Studies	1 credit	Environment and Information Studies	1 credit
Physical and Mental Health for Campus Life	1 credit	Physical and Mental Health for Campus Life	1 credit
Physical Education 1	1 credit	Physical Education 1	1 credit

(b) Advancing to the Third Year

Students must meet both of the following requirements in order to advance to the third year:

1. The student has advanced to the second year and has been enrolled for at least four semesters since entering the University (excluding periods of temporary leave of absence) and has earned at least 60 credits (excluding credits earned in Optional Subjects).
2. The student has earned all of the following credits:

Fundamental Subjects – Language Communication* ¹		At least 8 credits
However, at least 4 credits must be earned from one language.* ²		
Fundamental Subjects – Data Science		
Data Science 1		At least 2 credits
Data Science 2		At least 2 credits
Fundamental Subjects – Fundamentals of Information Technology		
		At least 4 credits

*1 The following courses cannot be included:

SFC Gateway English, Italian Basic 1, Italian Basic 2, Russian Basic 1, Russian Basic 2.

*2 Excluding Russian and Italian.

(c) Advancing to the Fourth Year

Students must meet both of the following requirements in order to advance to the fourth year:

1. The student has advanced to the third year and has been enrolled for at least six semesters since entering the University (excluding periods of temporary leave of absence).
2. The student has earned all of the following credits:

Fundamental Subjects	At least 30 credits* ³
Physical Education 2	1 credit
Physical Education 3	1 credit
Seminar A or Seminar B	At least 2 credits

*3 Includes the number of credits required to advance to the third year.

(d) Graduation

Students must meet all three of the following requirements in order to graduate:

1. The student has advanced to the fourth year and has been enrolled for at least eight semesters since entering the University (excluding periods of temporary leave of absence).
2. The student has earned all of the following credits:

Advanced Subjects	At least 30 credits
Graduation Project 2* ⁴	2 credits

3. The student has earned a total of at least 124 credits that include the above 2.

The following credits cannot be counted towards the 124 credits required for graduation:

- Credits exceeding 20 earned from Special Subjects
- Credits exceeding 60 earned from courses offered by other faculties, etc.

*4 Please note that credits for Graduation Project 1 must be earned before registering for Graduation Project 2. However, this does not apply if the Application for Study Abroad is approved by the Faculty Board and the student will study abroad in the first semester of the fourth year and completes the necessary procedures beforehand. For details, see “Graduation Project” on p. 20.

Important notes common to (a) to (d)

The following credits cannot be included in the credits required for advancement to the next year or graduation.

- All credits earned as Optional Subjects
- Credits exceeding 24 earned from Japanese Intensive Subjects

(2) Students Who Were Under the 2007 Rules and Regulations**(a) Advancing to the Second Year**

Students must meet the following two conditions in order to advance to the second year:

1. The student has been enrolled for at least two semesters (excluding periods of temporary leave of absence) and has earned at least 30 credits excluding Optional Subjects.
2. The student has earned all of the following credits:

Faculty of Policy Management	Faculty of Environment and Information Studies
Introductory Subjects 2 credits	Introductory Subjects 2 credits
Fundamental Subjects – Interdisciplinary Subjects At least 4 credits	Fundamental Subjects – Interdisciplinary Subjects At least 4 credits

(b) Advancing to the Third Year

Students must be enrolled for at least four semesters (excluding periods of temporary leave of absence) and earn at least 60 credits excluding Optional Subjects in order to advance to the third year.

(c) Advancing to the Fourth Year

Students must meet the following two conditions in order to advance to the fourth year:

1. The student is in their third year and has been enrolled for at least six semesters (excluding periods of temporary leave of absence).
2. The student has earned all of the following credits:

Faculty of Policy Management	Faculty of Environment and Information Studies
Fundamental Subjects – Language Communication At least 4 credits*1	
Fundamental Subjects – Data Science At least 4 credits	Fundamental Subjects – Data Science At least 4 credits
Fundamental Subjects – Fundamentals of Information Technology At least 4 credits*2	Fundamental Subjects – Fundamentals of Information Technology At least 8 credits*2
Physical and Mental Health for Campus Life 1 credit	Physical and Mental Health for Campus Life 1 credit
Physical Education 1 1 credit	Physical Education 1 1 credit
Physical Education 2 1 credit	Physical Education 2 1 credit
Physical Education 3 1 credit	Physical Education 3 1 credit
Advanced Subjects – Series of Policy Management At least 2 credits	Advanced Subjects – Series of Environment and Information Studies At least 2 credits
Seminar A or B At least 2 credits	Seminar A or B At least 2 credits

*1 The following courses cannot be included:

English Gateway 1, English Gateway 2, SFC Gateway English, Russian Basic 1, Russian Basic 2, Italian Basic 1, Italian Basic 2.

*2 The following courses can be included:

System Programming, Design Programming, Image Processing Programming, Graphics Programming, Programming on Mobile Devices, Functional Programming, Basic Media Technology (Web), Basic Media Technology (Network and Image Processing), Basic Media Technology (3D Programming)

(d) Graduation

Students must meet the following two conditions in order to graduate:

1. The student has advanced to the fourth year and has been enrolled for at least eight semesters since entering the University (excluding periods of temporary leave of absence).
2. The student has earned at least 124 credits including Graduate Project 2*3.

The following credits cannot be counted towards the 124 credits required for graduation:

- Credits exceeding 20 earned from Special Subjects
- Credits exceeding 60 earned from courses offered by other faculties, etc.

*3 Please note that credits for Graduation Project 1 must be earned before registering for Graduation Project 2. However, this does not apply if the Application for Study Abroad is approved by the Faculty Board and the student will study abroad in the first semester of the fourth year and completes the necessary procedures beforehand.

Important notes common to (a) to (d)

The following credits cannot be included in the credits required for advancement to the next year or graduation.

- All credits earned as Optional Subjects
- Credits exceeding 24 earned from Japanese Intensive Subjects

(3) Transfer Students Entering the Second Year of Undergraduate Programs

Refer to the Japanese version of the SFC Guide.

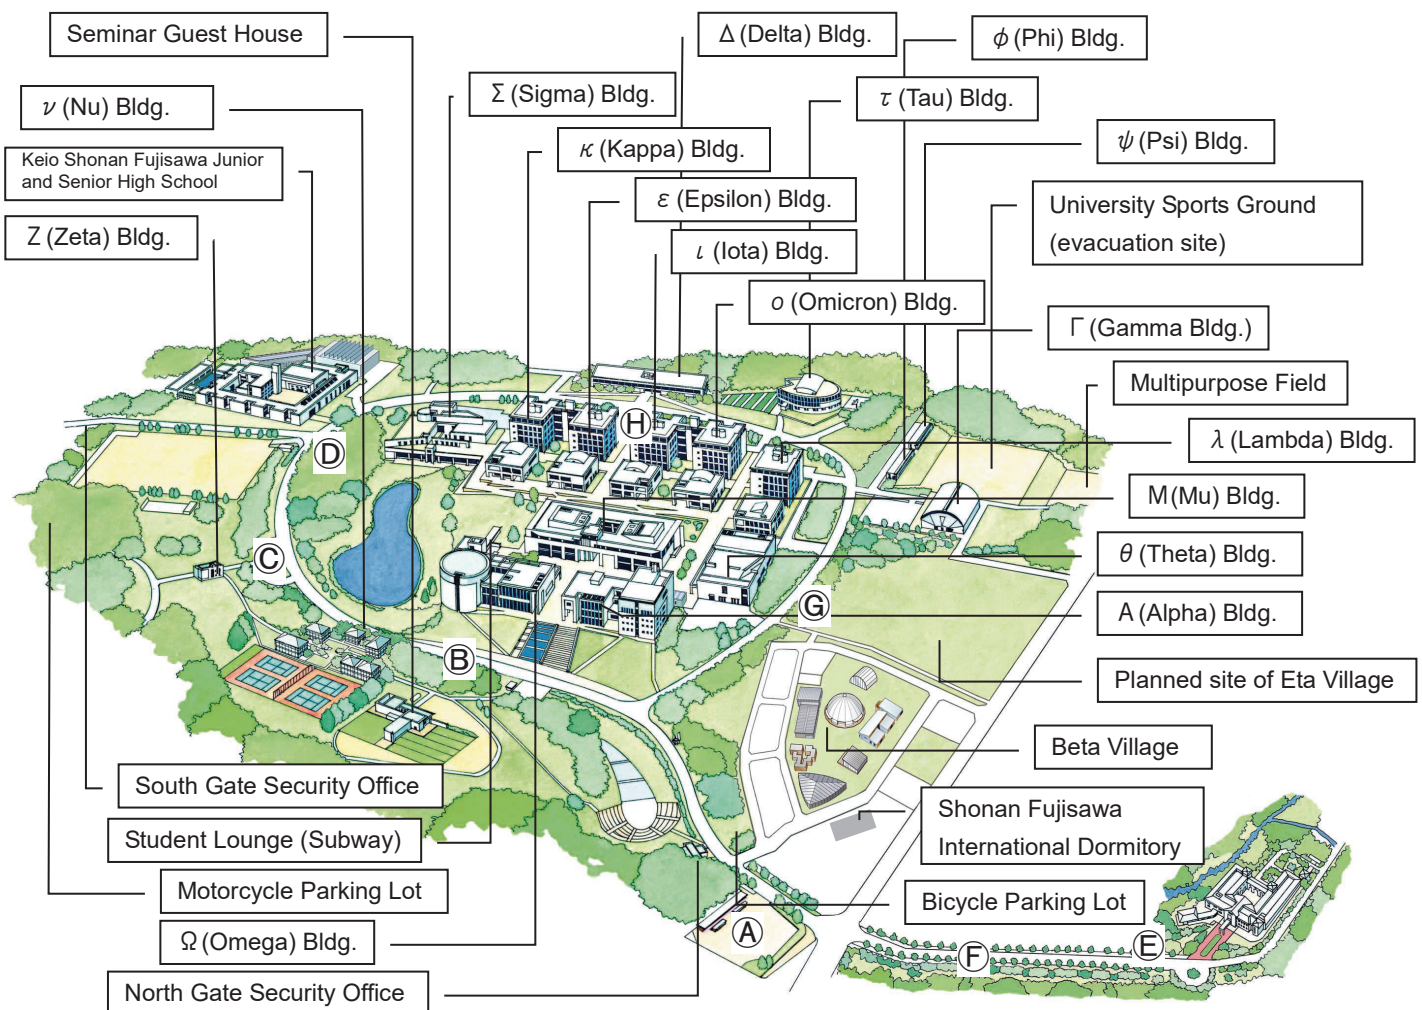

(4) Students with Bachelor's Degrees Entering the Third Year

Refer to the Japanese version of the SFC Guide.

Handling of Students, Guardians, and Guarantors' Personal Information

1. Personal information gathered from Keio university and affiliated school students includes the following:
 - a) Student's name, address, telephone number, date of birth, and the name of the schools from which the student graduated
 - b) Guardian and guarantor's name, address, telephone number (home number and emergency contact number), and the guardian/guarantor's relation to the student
 - c) Information pertaining to the student's register, academic records, health examinations, or other activities conducted while registered as a student, and information related to donations and applications for Keio Card, etc.
2. The purpose of use of personal information will be specified in advance. Personal information will not be used for any purpose other than specified. If the purpose of use changes, individuals will be notified directly, or public announcements will be made via the Keio official website and on specified notice boards.
3. Personal information will be used for the purpose of performing the following operations:
 - a) Enrollment procedures and administering, communicating, and carrying out procedures concerning academic affairs;
 - b) Administering, communicating, and carrying out procedures concerning general student life;
 - c) Administering, communicating, and carrying out procedures concerning the use of university facilities and equipment;
 - d) Sending documents and conducting communications for soliciting donations and recruiting members for the Keio Iji-kai (Support Group) and the Keio Card;
 - e) Sending various documents to students, guardians, and guarantors; and
 - f) Sending publications and conducting communications after graduation regarding Councilor elections, and for soliciting donations and recruiting members for the Keio Iji-kai (Support Group) and the Keio Card.
4. Some of the operations listed in 3. above may be entrusted to subcontractors hired by Keio University. In order for such subcontractors to carry out their work, some or all of the personal information Keio University has received from individuals (to the extent necessary) may be provided.
5. Personal information of individuals affiliated with the Mita-kai or alumni associations may be provided when requested by said organizations, to the extent necessary for their activities.
6. Unless otherwise stated, personal information will not be used or disclosed to a third party for purposes other than those listed in 3.– 5. above. However, exceptions may be made to provide personal information to third parties in cases where there is a legal obligation to disclose information; when it is deemed necessary to protect the life, physical wellbeing, property, or other rights and interests of the individual or a third party; or when there are other urgent needs and it is not possible to obtain the consent of the individual in question.

SFC Class Timetable

Each campus uses a different class timetable.

The class timetable at SFC is as follows:

Period	Time
1	9:25 – 10:55
2	11:10 – 12:40
3	13:00 – 14:30
4	14:45 – 16:15
5	16:30 – 18:00
6	18:10 – 19:40
7	19:50 – 21:20

* Times for remote classes may differ.

Class Timetable for Other Campuses

Period	Mita, Hiyoshi, and Yagami
1	9:00 – 10:30
2	10:45 – 12:15
3	13:00 – 14:30
4	14:45 – 16:15
5	16:30 – 18:00
