

Graduate School Course Registration Guide

AY2025

【For April Intake】

Keio University Graduate School of Medicine

This guide includes general remarks and important points regarding program requirements, subjects, degree completion, and more at the Keio University Graduate School of Medicine. Please read this guide carefully and use it to help plan your studies. Please keep this guide in a safe place as you may need to refer to it even after completing your program.

Please refer to the Japanese version of the regulations, course guides for each course, and lecture outlines.

Professional Development at the Graduate School of Medicine

Master's Program

The Master's Program is designed for individuals who have studied the natural sciences or the humanities and social sciences. The program aims to help students develop the following knowledge, skills, and abilities through coursework, engaging in research under the guidance of an academic supervisor, and writing a master's thesis.

Students will gain:

- 1.the ability to set research topics and demonstrate appropriate research methodologies and methods of argumentation.
- 2.the ability to correctly derive conclusions based on research findings.
- 3.the ability to accurately present research findings and related issues.
- 4.the ability to demonstrate a wide range of medical knowledge and high ethical standards in medicine and health care.

We strive to train students who, upon completing the Master's Program, not only develop into highly skilled professionals with comprehensive expertise in medicine and health care but also aspire to continue their education in a doctoral program.

Doctoral Programs

Our doctoral programs are designed for graduates of 6-year medical, dental, veterinary, and pharmaceutical schools as well as those who have completed the master's program. These programs aim to help students develop the following knowledge, skills, and abilities through coursework, engaging in research under the guidance of an academic supervisor, and writing a doctoral dissertation.

Students will gain:

- 1.the ability to set research topics and demonstrate appropriate research methodologies and methods of argumentation.
- 2.the ability to correctly derive conclusions based on research findings.
- 3.the ability to demonstrate a wide range of medical knowledge and high ethical standards in medicine and health care.
- 4.the skills needed to present research findings clearly and accurately
- 5.a clear vision for the development of future research topics.

The Applied Medicine Program is designed to train researchers who, upon completing the program, can carry out highly original basic research in fields related to basic and clinical medicine, uncover disease mechanisms, and develop treatments for intractable diseases. The Medical Science Program is designed to develop professionals who can conduct outstanding clinical research on cutting-edge medical care, design research protocols, and become experts in interdisciplinary cancer care.

Shinanomachi Campus Guide

Office Information and Hours

Office	Main Activities	Open Hours	Location
Office of Student Services; Academic Affairs / Student Life Services	Administrative services and applications, lost and found, certificate issuance, registration, transcripts and academic records, classroom usage, graduate admissions, scholarships, student health insurance, employment/career services	Weekdays 8:45 – 16:45*	1F, Koyosha
Keio University Health Center	Health Checkups, Health Care	Weekdays 8:30 – 17:00*	2F, Building 2
Shinanomachi KIC	KEIO ID(keio.jp accounts), computer services	Weekdays 9:00 – 16:30*	1F, Building 3 (North Wing)

*Campus closed on weekends, national holidays, summer and winter holidays, January 10 (Anniversary of Yukichi Fukuzawa's Birthday), and April 23 (Keio Foundation Day)

School Bell Schedule (Shinanomachi Campus)

Period 1	9:00 – 10:30
Period 2	10:45 – 12:15
Period 3	13:00 – 14:30
Period 4	14:45 – 16:15
Period 5	16:30 – 18:00
Period 6	18:10 – 19:40
Period 7	19:50 – 21:20

Message from Academic Affairs

Please be sure to regularly check the website etc. for the latest updates and announcements. These will include timetables for graduate courses taught at Shinanomachi Campus, classroom changes, class cancellations/makeup classes, emergency notices, reporting guidelines, the academic calendar, and notifications for students. Updates from the Office of Student Services will also be posted on the website, etc. For information regarding courses taught on other campuses, please also check the website, bulletin boards on those other campuses, etc.

Shinanomachi Campus Map (as of April 2024)

Please refer to the following website.

<https://www.keio.ac.jp/en/maps/shinanomachi.html>

Other Campus Information

(1) Use of Personal Computers, Network, and Software

The Shinanomachi Information Technology Center (Shinanomachi KIC) provides the following IT services related to education and research at Shinanomachi Campus:

- Support services for Keio IDs (keio.jp accounts)
- Computer rooms and printing services
- Network services (including Wi-Fi)
- Software licenses for use on campus
- Help desk and user support

For more details, please refer to the web pages listed below:

Shinanomachi KIC Website

https://www.sc.itc.keio.ac.jp/en/top_sc.html

Shinanomachi KIC Website > User Guide

https://www.sc.itc.keio.ac.jp/en/service_sc.html

(2) Certificate Issuing Machine (see Section 4.8 on certificates [e.g., Transcripts, Student Travel Fare Discount Certificate (*Gakuwari*)])

One certificate issuing machine is located on the first floor of the Koyosha building. Please confirm machine operating hours on campus bulletin boards or on the Keio University Student Website by navigating to “Procedures” and then “Information about Certificates.”

(3) Lost & Found

Lost and found items are held at the Office of Student Services or the Disaster Prevention Center (1F, Building 2).

2 K-Support

<https://keio.jp/>

K-Support is a portal site intended for current students at Keio University. The purpose of this site is to support students in their school life by providing a platform to view announcements and messages from the university, prepare and submit applications, and contact various departments and offices. Students will also be able to find a collection of links to the apps used at Keio. As it will be an indispensable tool for students, be sure to bookmark K-Support for easy access.

■ Homepage

Messages	This is where you will find direct messages from the university to you. <u>Check your messages regularly</u> , as they may contain important notices such as those related to course registration or student life.
----------	--

News	You will find announcements and event information from the university posted here. Important news related to course registration and graduation will be posted, so please look through the page's news items from time to time.
K-LMS	Canvas LMS is a system focused on providing academic support. It has features for distributing class materials, submitting assignments, general notifications, discussions, and more. K-LMS is essential for participating in classes at Keio, so be sure to familiarize yourself with it.
Cancelled and Makeup Classes	A list of classes that have been cancelled or have makeup lessons will be displayed here. Information on cancelled classes and makeup lessons are subject to change, so please check before the relevant class is held.
Course Registration	This system is used to register for courses, register for additional courses, cancel course registrations, or to declare no new registrations for courses. You can modify your registered subjects during course registration periods. Because the rules for registering for courses differ by campus, confirm with your faculty's relevant section if you have any questions.
Registered Courses	You will find displayed a list of registered courses. Be sure to check that you have correctly registered for subjects. You can also view classroom information.
Grade Report	You can view available academic transcripts. The period you can view transcripts varies depending on undergraduate faculty, graduate school, academic year, etc. Details are published on the Keio University Student Website.

■ Information Registration and Other Applications

Personal Information	
Confirm or Update Address (Student/Guarantor)	You can confirm your contact information and that of your guarantor. Please carry out the necessary procedures as soon as possible if you need to make any changes.
Reissue Student ID Card or Registration Sticker	If you lose or damage your student ID card or the registration sticker (on the reverse side of the ID card), please make an application for another one here. For more information, please visit the Keio University Student Website or p. 18
Issue Certificates (Sealed and Special Certificates)	If you wish to request a certificate that cannot be issued from the Certificate Issuance Machines (such as certificates that are sealed, certificates for various qualifications, certificates involving direct overseas delivery, and for applications to fill out

	certificates involving third party-specified forms [“request forms”]), please submit your request here. For more information, please visit the Keio University Student Website or p. 21
Change of Guarantor	You can register changes to the information indicated on the left. For more information, please visit the Keio University Student Website or p. 19.
Name Change (Student)	
Name Change (Guarantor)	
Register Overseas Address (Student)	
Register Overseas Address (Guarantor)	
Emergency Contact in Japan	
Temporary Leave of Absence	Use this to apply for a leave of absence. Check the Keio University student website or p. 15 for more information on taking a leave of absence.
Study Abroad	Make a study abroad application from here. Check the Keio University student website or p. 16 for more information on studying abroad.
Notice of Returning to Study	When your faculty board-approved leave of absence or study abroad has finished its duration, register your Notification of Returning to Study from here as soon as possible. For more information, please visit the Keio University Student Website or p. 15.

Class	
Request for Reasonable Accommodation	Students who continuously experience considerable impediments in their daily or social lives due to disabilities or social barriers may apply for reasonable accommodation for their academic studies.

■ Class Surveys

You can enter class evaluations and check results of surveys here.

There will be announcements on class evaluations made through the K-Support news page and other relevant platforms.

■ FAQ and Inquiries

From here you can view frequently asked questions and contact the Office of Student Services.

If you have any questions or concerns about student life, please refer to this page

■ Apps (Excerpt)

This section provides an overview of some of the services and systems needed for student life.

○ Google Workspace

Your email (Keio University Mail), online storage (Drive), calendar, groups, and contacts are provided through Google Workspace.

○ Classes

System	Department	Explanation
K-LMS: Learning Support System (Canvas LMS)	KIC	Canvas LMS is a system focused on providing academic support. It has features for distributing class materials, submitting assignments, general notifications, discussions, and more.
Syllabus and Timetable Search	Office of Student Services	This site will be used when selecting your courses. You will get information on course contents, lesson plans, textbooks, grading systems, and other information necessary for obtaining course credits. Please be sure to check the syllabus and timetable before registering for courses.
Course Registration	Office of Student Services	This system is used to register for courses, register for additional courses, cancel course registrations, or to declare no new registrations for courses. You can modify your registered subjects during course registration periods. Because the rules for registering for courses differ by campus, please confirm with the section for your faculty if you have any questions.
Confirmation of Registered Courses	Office of Student Services	You will find a list of subjects that you are taking. Be sure to check that you have correctly registered for courses. You can also view classroom information.
Information on Class Cancellations/Makeup Classes/Free-Scheduled Classes	Office of Student Services	A list of classes that have been cancelled or that have makeup lessons will be displayed. Information on cancelled classes are makeup lessons are subject to change, so please check before the relevant class is in session.
Grade Reports	Office of Student Services	View available academic transcripts. The period you can view transcripts varies depending on the faculty/graduate school, academic year, etc. Details are published on the Keio University Student Website.
Pre-register Desired Courses	Office of Student Services	This is used for courses that require advance registration through a lottery system. However, there are cases where you may need to preregister for courses you wish to take or submit an entry sheet without using the web system, depending on the course. Note that the application period is different for each course.
Keio University Web Entry System	Office of Student Services	
Teacher Training Course	Office of Student Services	This system is used to register for teacher training courses, apply for nursing care experience required for teachers, and apply for a teaching license through the university. Please check the application period carefully, as it differs for each course.

○ Student Life Services, Scholarships/Financial Aid, and Academic Fees and Expenses

System	Department	Explanation
Medical Care Benefits Application	Office of Student Services	You can prepare an application form to apply for medical benefits from the Keio Student Health Care Mutual Aid Association (“Gakuseikenpo”).
Online System for Student Club Activities	Office of Student Services	You can register your student club’s information, submit changes in club managers and presidents, download various notification forms, and submit off-campus event notifications and overseas activity application forms, as well as other applications related to student club management. Students can use this to make an application for club authorization.
Online Scholarship Application System	Office of Student Services	You can make a scholarship application or application sheet required when applying for internal scholarships or scholarships offered by private organizations or the local government. You will also find notices of incomplete documents and be able to check the application or funding status through this system. *Foreign students may only use this service if their status of residence is Special Permanent Resident, Permanent Resident, Permanent Resident, Spouse or Child of Japanese National (Permanent Resident), or Family Dependent.
Student Payment Portal (Gakuhi Navi)	Office of Finance	This portal site allows students to view information related to tuition fees, check payment history, and complete procedures related to payment of academic fees and expenses while in school. It can also be used to issue a certificate of proof of payment and to register an account for refund procedures.

○ Services

System	Department	Explanation
Software License Acquisition System	KIC	This is a software license distribution system with which Keio University holds a contract.
Box	KIC	This cloud-based online storage service can be used to back up and archive files, as well as to share files with faculty and staff members, with other students, and with external parties.
Report Infectious Disease	Keio University Health Center	If you contract an infectious disease, you are required to report it to the Keio University Health Center. If you have a confirmed case of an infectious disease, make sure to report it.
Certificate Issuance Machine	Office of Student Services	This service allows you to issue certificates at on-campus certificate issuing machines, convenience stores nationwide, and electronic certificates (in PDF format). See p. 21 for details on certificate issuance.

○ Placement and Careers

A website is provided where you can find a general overview of the fundamentals of conducting a job search, as well as read the experiences of Keio alumni who have done job-hunting.

You can also use the “Alumni Visit System (send email)*”.

*Available from the second semester of the year preceding the final year of study.

○ Adjusting keio.jp Settings

You can configure your settings on the keio.jp site. For more information about keio.jp, please refer to the next section.

3 Keio.jp

keio.jp is the common name for the “Keio Single Sign-on System,” an authentication system for the safe and convenient use of the various online services offered by Keio University. In principle, you will need log into keio.jp to use the services provided by Keio University.

Please refer to the following manual for more.

https://www.itc.keio.ac.jp/en/keiojp_manual.html

Resetting Your Password

See below for information about service desks that can assist in reissuing various passwords.

Login ID	Service Desk	Required Documents
Keio ID	Campus KIC Counters	Student ID Card

3: Enrollment (Temporary Leave of Absence, Study Abroad, Withdrawal)

1 Temporary Leave of Absence (University Regulations, Article 125)

Students who anticipate a long absence due to illness or other unavoidable reasons can take a Temporary Leave of Absence with the permission of their respective Graduate School Committee.

Those wishing to take a leave of absence should consult with their research supervisor and confirm the application procedure on K-support. Please apply by the course registration deadline, attaching documents that verify the reason for the leave (e.g., a medical certificate written by a doctor in the case of illness). Please note that the Research supervisory Board may follow up directly as necessary.

The semester in which a student takes a leave of absence does not count towards the total period of enrollment required for program completion.

If a previously approved Temporary Leave of Absence would extend into the next school term, students must gain approval for this leave again at the beginning of that term and every subsequent term.

	Spring Semester	Full Year	Fall Semester
Period of Temporary Leave of Absence	April 1 – September 21, 2025	April 1, 2025 – March 31, 2026	September 22, 2025 – March 31, 2026
Application Deadline for Temporary Leave of Absence	16:45 on May 30	16:45 on November 28	

Returning to Study

After your leave of absence has ended, please consult with your research supervisor and promptly apply on K-support to return to your studies. If you were absent due to illness, you must also submit a medical certificate written from a doctor certifying that you are able to return.

Please refer to “Temporary Leave of Absence Procedures” on p. 10 for more information on how academic fees, coursework, credits, etc., are handled in these instances.

Please also refer to Articles 125 and 135 of the University Regulations before applying.

Temporary Leave of Absence Limits

Starting from AY 2024, Article 125 of the university regulations has been amended as follows:

- (1) The total period of temporary leaves of absence for students in master's programs may not exceed four years (8 semesters).
- (2) The total period of temporary leaves of absence for students in doctoral programs may not exceed eight years (16 semesters).

(3) The prescribed total period above will only count temporary leaves of absence taken from April 1, 2024, onward (leaves of absence taken in AY 2023 and earlier will not be counted).

(4) If a temporary leave of absence is approved for a student to fulfill obligatory military service in their home country, then the period will not be counted toward the total.

(5) Applications to take a temporary leave of absence will be denied (excluding leaves for military service obligations in a student's home country) if the period a student applies for, when combined with previously taken periods, exceeds the limit placed on temporary leaves of absence

2 Study Abroad (University Regulations Article 124)

If recognized by the Graduate School Committee as valuable for student education, studying abroad at a graduate school or other institute of higher learning outside of Japan may be permitted without taking a temporary leave of absence.

After consulting with their research supervisors, students who wish to study abroad must apply on K-Support at least three months before departure.

Students can study abroad for a maximum of one year per application. However, it may be possible to extend this period with a total study abroad duration of up to one year for master's program and up to two years for doctoral programs. If the study abroad period exceeds the stipulated maximum number of years (one for the master's program and two for doctoral programs), students will be considered to be on a temporary leave of absence. In this case, students must submit an Application for Temporary Leave of Absence for the remaining permitted study abroad period. Please also confirm any additional procedures required to address these cases with the Shinanomachi Office of Student Services as soon as possible.

Once their study abroad period has finished, students must promptly submit a Notice of Returning to Study.

3 Withdrawal (University Regulations, Article 126)

Students who wish to withdraw from the university due to illness or other reasons must meet with their research supervisor and promptly submit a Notification of Withdrawal, along with their student ID card, to the Office of Student Services.

The Notification of Withdrawal must include the reason for withdrawal, be jointly signed by the guarantor, and be signed and stamped by the student, guarantor, and research supervisor. (The student and guarantor must sign and stamp separately.)

Please refer to p. 64 ("Enrollment Extension & Withdrawal") for more information about withdrawal from a doctoral program (after the completion of required coursework without submission of a dissertation).

Please also refer to Articles 126 and 135 of the University Regulations before submitting a Notification of Withdrawal.

4 Expulsion (University Regulations, Articles 128 and 161)

(1) In accordance with Article 128 of the University Regulations, students will be expelled if they exceed the maximum period of enrollment of four years for the master's program or

eight years for the doctoral program. However, approved periods of absence will not be counted toward the total number of years of enrollment. Please refer to p. 64 for more information.

(2) In accordance with Article 161 of the University Regulations, students will be expelled if they are found to have violated the University Regulations or other rules and regulations, if their intention to continue study cannot be confirmed (e.g., students who do not register for classes by the deadline and have not applied for a temporary leave of absence or withdrawal), or if they similarly disregard university expectations.

5 Important Notes

The Graduate School of Medicine does not have set requirements for year-over-year advancement, but students who take a leave of absence during a certain year will be required to repeat that year of study.

Temporary Leave of Absence Procedures

Categories		<ul style="list-style-type: none"> – Leave of absence due to illness or injury (Please provide a doctor's note.) – Leave of absence for personal reasons
Period	Application Period	Spring Semester / Fall Semester / Full Year *Regardless of where the date of application falls in the academic year or semester, students will be considered to have taken a leave of absence for the entire period. *Students who plan to take a leave of absence for more than one academic year must apply for Temporary Leave of Absence at the beginning of each subsequent academic year. *Please see p. 8 for the deadline to apply for Temporary Leave of Absence.
	Extensions	New applications as well as extensions must be submitted at the beginning of each applicable semester or academic year.
Academic Fees and Expenses	Measures for Exemption from Academic Fees and Expenses	For students taking a temporary leave of absence, the full cost for each semester during the period will be exempted. *Students must apply in order to receive an exemption.
Credits	Course Registration	Students cannot take classes during semesters in which they are on a leave of absence. (If a student begins a leave of absence in the spring semester, all spring semester courses registered for in April will be deemed invalid. If a student plans to take a leave of absence in the fall semester, fall semester courses will similarly be deemed invalid, but spring semester courses taken and earned when not on a leave of absence will remain valid.)
Advancement and Completion	Years of Enrollment	The period during which students are on a leave of absence does not count toward total years of enrollment. *Temporary leave of absence will not be granted to students who have extended their period of enrollment.
Application Procedures		1. Consult with your research supervisor. 2. Apply with K-support. 3. If approved at a Faculty Meeting, an approval letter will be sent to the guarantor.

4: Administrative Services

1 Student ID Card

The student ID card certifies that the holder is a student of Keio University. Be sure to carry it at all times as it will be required in various situations. Student ID cards cannot be lent or transferred to others.

(1) Reissuance of student ID cards

If your student ID card is lost or damaged, please apply for a replacement as soon as possible by going to K-Support's Applications → Reissue Student ID (see pg. 8 for URL and login details). If there are no discrepancies, your application will typically be approved within a few days, and you will receive an approval notice sent to your Keio University Mail (@keio.jp) email address. Please collect your reissued student ID at the Office of Student Services on Shinanomachi Campus.

– Required documents:

Application Form (prescribed), a photograph for the new student ID card (Clear color image, in JPEG format, of at least 284px by 237px (24mm height by 20mm width); no cap/ hat; full-frontal view of head and shoulders against a plain white, blue, or gray background (no landscapes, curtains, etc.); taken within the last 3 months), and 2,000 yen in the form of a certificate stamp (shoshi) available from the ticket machine at the Office of Student Services on Shinanomachi Campus.

Reason for reissuance	Charges
Loss or damages of a card	2,000 yen
Change in name/loss of a sticker/damage to magnetic strip or IC chip (When the card is not noticeably damaged)	Free

(2) Registration sticker

Stickers valid for four years from the time of enrollment are distributed to each student. If you will be enrolled for more than four years due to a leave of absence, study abroad, repeating a year, etc., stickers with renewed validity will be distributed before they expire. If you lose the sticker, please make an application at the Office of Student Services on Shinanomachi Campus.

(3) Return of student ID card

If you have a new student ID reissued and have the original student ID card at any point, or if you are no longer enrolled due to withdrawing from the university, graduating, or any other reason, you must immediately return the original card to the Office of Student Services on Shinanomachi Campus.

2 Notification of Change of Address (Student/Guarantor)

(1) For students

Immediately report a change of address by going to K-Support and following the links for Applications → Confirmation/Change of Address. Follow this same process to report a change in telephone number as well. Please refer to p. 16 for the URL and how to log in. Applications will normally be completed within a few days as long

as there are no errors. When approved, you will receive a notice of approval through Keio University Mail (@keio.jp). Note that there will be no notification email if the change is only phone number or email address.

If your travel route to and from the university changes, print an application for a Student Commuter Certificate from Certificate Issuance Machine after 7:00 am on the day after receiving a notification of approval on keio.jp.

When registering or changing an address that is outside Japan, go to K-Support and follow the links for Application → Overseas Address Registration (Student) and make an application from there.

(2)For guarantors

Immediately report a change of address by going to K-Support and following the links for Applications → Confirmation/Change of Address. Follow this same process to report a change in telephone number as well.

When registering or changing an address that is outside Japan, go to K-Support and follow the links for Application → Overseas Address Registration (Student) and make an application from there.

If these procedures are not carried out, student may be delayed from receiving notifications regarding his/her course registration or other important information.

3 Change of Guarantor

If you are planning to change guarantor, go to K-Support and follow the links for Applications → Change of Guarantor (refer to p. 8 for the URL and login information). A guarantor should be an adult who resides in Japan, is responsible for supporting their family financially, and they must be able to bear responsibility for the student's academic fees and expenses and personal affairs. If possible, students should designate one of their parents.

If it is not possible for the student's parent to act as the guarantor, please designate a guardian, such as an older sibling, uncle, aunt, or equivalent. However, if a student is unable to choose a person residing in Japan as a guarantor, the student may assign a person who lives in a foreign country. In this case, please also provide an emergency contact in Japan in case of emergencies by going to K-Support and following the links for Application → Emergency Contact in Japan. The emergency contact must be reachable promptly in the event of emergency.

Also, if a student's guarantor resides overseas, the tuition invoice will be sent to the student's current address.

4 Changing Surname or Given Name (Student/Guarantor)

If you have changed your surname or given name, please go to K-Support and follow the links for Application → Name change (Student) or Name change (Guarantor) and make an application as soon as possible. Refer to p. 8 for the URL and login information.

Required documents

Student ID card, Notification of Change of Name (prescribed form), a Certificate of Family Register or Extract of Family Register containing the new name (must be issued within the last three months, or a Certificate of Residence which the old surname is printed alongside the new surname (must be original documents issued within the last three months)/a copy of valid driver's license on which the old surname is printed alongside the new surname.

5 Change of Nationality

If you have changed nationality, please refer to the Keio Student Website and make an application as soon as possible.

Required documents

Student ID card, an official certificate that can be used to verify the change to the new nationality, such as a copy of the extract of the student's family register (photocopies accepted) or Certificate of Residence (please check with the issuing body in advance to confirm if the necessary information will be stated on the document).

6 Student Commuter Certificate (Student Commuter Pass)

Please follow the procedure below to purchase a student commuter pass after obtaining a paper Commuter Pass Certificate in advance.

(1) Log in to the certificate issuing service (access from Student Website → Procedures → Certificates → Information about Certificates) and apply for a Student Commuter Certificate.

(2) Print out a Student Commuter Certificate at a convenience store or on-campus certificate issuing machine.

(3) Fill in the commuting route and other information on the Student Commuter Certificate and submit it to the station counter to purchase a Student Commuter Pass.

* There is no fee for issuing a Student Commuter Certificate, but there is a 60 yen printing fee for printing the pass at a convenience store.

* The commuting route must be the most economical way between "the closest station to the student's residence" and "the school's closest station to the campus" (either from Tamachi, Mita, Shirokane-Takanawa, or Akabanebashi). If the student is found to be cheating the system, their commuter certificate may be suspended or the student may be punished in accordance with the school regulations.

* If you are to change your home address, please apply for a change of address on K-Support (Address Confirmation/ Change). The new address will be reflected on your commuting certificate after 7:00 a.m. on the morning the following day you receive the email notifying you of the change of address.

Please also use the Certificate Issuance Service for procedures to commute to other campuses in order to take courses. For details, please refer to the Keio Student Website (<https://www.students.keio.ac.jp/en/com/procedure/pass/>)

7 Notifying the University of Off-Campus Research

Students are permitted to temporarily conduct research activities at research institutes (research facilities) outside of the university. Please submit a Notice of Off-Campus Research form (signed and sealed by your research supervisor) to the Academic Affairs Office at the Shinanomachi Office of Student Services. You will need to submit separate forms for each academic year you plan to pursue this activity, even if it spans multiple years. For students in a master's program, off-campus research (not including participation in conferences) must be approved at a Faculty Meeting.

The Notice of Extramural Research form can be downloaded from the following site:

<https://www.students.keio.ac.jp/sn/gsmcd/procedure/master/off-campus-research.html>
(Japanese only)

8 Certificates (Transcript, Student Travel Fare Discount Certificate, etc.)

How to issue a certificate

(1) Students can use either the certificate issuing machines on campus or the multi-functional photocopying machines installed in convenience stores nationwide. Also, there is a function that sends a download link of an electronic certificate (PDF data of certificate) directly to an employer, overseas educational institution, etc. For more information, please check the Keio Student Website.

<https://www.students.keio.ac.jp/en/com/procedure/certificate/issue.html>

① Issuance at convenience stores

Certificates can be obtained using the multi-functional photocopying machines at convenience stores nationwide

(FamilyMart, Lawson, Seven-Eleven) Apply online to issue the required certificates, and pay the issuance fees by credit card, in cash at convenience stores, or using other forms of electronic money, etc.

Note: Student Travel Fare Discount Certificates cannot be issued at convenience stores. Please use certificate issuing machines on campus.

② Certificate Issuing Machine

Location	Operation hours
1F, South School Building	Monday–Saturday, 8:45am–8:00pm No service on Saturdays when no classes or semester-end examinations are held, public holidays, during campus-wide breaks and system maintenance periods.

• Certificate Issuing Machines are also available on other campuses (Hiyoshi, Yagami, and SFC).

• Information will be posted on keio.jp when the Certificate Issuing Machines are temporarily out of order due to maintenance or malfunction.

③ Online Delivery of Electronic Certificates (PDFs)

This function is used to send a download link of an electronic certificate (PDF data of certificate) directly to an employer, overseas educational institution, etc. For details, please refer to the Keio Student Website.

<https://www.students.keio.ac.jp/en/com/procedure/certificate/issue.html>

(2) Certificates in a sealed envelope

If a student requires a certificate in a sealed envelope, make a request by going to K-Support and following the links for Application → Issue Certificates (Sealed Envelope / Special Certificates). Note that certificates issued from a Certificate Issuing Machine/Convenience Store printing machine cannot be sealed in an official envelope afterwards.

(3) Application for a certificate by a proxy

A designated person can apply for a certificate on a student's behalf only in cases where a student is not able to visit the university for reasons such as study abroad or being hospitalized. Applications are accepted at the Faculty of Economics Section in the Office of Student Services.

– Required documents

A copy of the applicant's student ID card, a letter of attorney, and the representative's ID (a valid proof of identity)

The letter of attorney may be written in any format as long as it states the intentions of the student. Example: Letter of Attorney

I hereby nominate and authorize [the name of the representative] to apply for and to collect my certificate.

[Date, signature, and seal of the student] To identify the proxy, the following forms of identification are accepted: Keio student ID card, driver's license, passport,

health insurance card (please hide ID number, etc.), or Residence Card.
Other forms of identification such as a staff identity card for a company or a student ID card of another university are not accepted.

(4)List of Certificates

Certificate	Language	Price per copy	Place of issue	Issued	Available from	Remarks
Certificate of Enrollment	Japanese	300 yen	On-campus certificate issuing machines/online/convenience store	Same day	April 1	
	English					
Transcript of Academic Record	Japanese	300 yen	On-campus certificate issuing machines/online/convenience store	Same day	April 1	Courses passed in the Spring Semester will be reflected on September 22.
	English					
Certificate of Expected Graduation	Japanese	300 yen	On-campus certificate issuing machines/online/convenience store	Same day	April 1	Issued to 4th year students only. If you are taking a leave of absence or studying abroad, Please go to K-Support and follow the links for Application → Issue Certificates (Sealed Envelope / Special Certificates) to apply. It will be issued from the undergraduate faculty office.
	English

pletion	h			late r		to apply.
---------	---	--	--	-----------	--	-----------

Be aware that it may take several days for some certificates to be issued.

A student ID card is required for certificates to be issued and received.

Student Travel Fare Discount Certificates (Gakuwari) are valid for 3 months from the date of issue but will become void when the student is no longer enrolled at the university, even if it is within the 3 month period. Please refrain from applying for more tickets than actually required.

Application forms for group discount tours are available at the Student Life Services Group in the Office of Student Services.

Certificates cannot be issued for students whose tuition has still not been paid for the previous semester or earlier. The certificates can be issued at the Faculty of Economics counter in the Office of Student Services after the tuition payment has been made, but it will take several days for confirmation by the Office of Finance and issuance.

5: Classes and Grades

1 Borrowing Keys

Service Counter: Weekdays 8:45 – 16:45 Shinanomachi Office of Student Services (1F, Koyosha)

*Outside of regular hours, students can borrow keys from the Disaster Prevention Center on the first floor of Building 1.

Procedures: You will need to show your student ID card when borrowing keys.

2 Classes in Emergency Situations

In cases where classes must be canceled in the event of an emergency, such as the suspension of public transportation due to a large-scale accident or because of natural disasters including typhoons, torrential rain, snow, and earthquakes, announcements will be posted on the university website.

Keio University Student Website > Classes > Handling of Classes in Emergencies

3 Procedures in Case of Jury Duty Selection

Keio University does not recognize so-called “official absences.” If you have been selected as a candidate for jury duty and are not sure whether you can attend classes, please contact the graduate section of the Shinanomachi Office of Student Services. Please note that due to the nature of our classes, absences may not be excused.

4 Reports

When submitting reports to the Shinanomachi Office of Student Services report box, please follow these guidelines:

- (1) Reports must be submitted at the designated location during the designated time frame.
- (2) Once a report is submitted, it cannot be amended, even if the submission period is still open.
- (3) Reports must be submitted on time and during the Office of Student Services report box hours.

Report Box Location: Koyosha 1F

Submission Hours: Be sure to confirm the submission periods and deadlines set by each course.

Koyosha is open from 6:00 to 22:00.

5 Grades

(1) Grading

There are five grade levels: S, A, B, C, and D. Passing grades are S, A, B, and C, whereas D is a failing grade. However, some courses use only the two grade levels of P and F, where P is a pass and F is a fail. Courses taken at other universities that have been approved for credit transfer without using the grade levels S, A, B, C or P are assigned a G.

* From AY2023, courses offered in the Graduate School of Medicine are marked as "D / F (Fail)" in case students do not participate in the courses or not fulfill the course requirements after registering the courses.

Until AY2022, these courses were marked as "--", which means not marked, instead of "D / F (Fail)" and remain in the registration as a course which is not assessed yet in the following year.

However, from AY2023 onward, the grade of "--" is used only for the first year of the particular courses** which are assessed over 2 years.

** Master's Programme: "Special Research in Medical Science" and "Anatomy (In charge of Prof. Kazunori Nakajima)"

Doctoral Programme: "XX Practice, Seminar, and Advanced Theory (excluding "In Vivo Experimental Medicine: Practice")," and "Affiliated Institute Educational Program"

* Please note that if you wish to retake a course in the next academic year or later, for which you previously received a grade of "D / F (Fail)", you must follow another application procedure during the designated course registration period. However, attendance and assignments from previous years will not be taken into account in your grade assessment. You will need to start over to fulfill course requirements for gaining the credits.

*The evaluation of "Medical Ethics" and "Coordinated Curriculum on Being A Professional Student in Medical Sciences" offered in the Master's course and "Medical Ethics" and "Medical Science Methodology" offered in the Doctoral course is changed to "P (Pass)" and "F (Fail)" from AY2023.

*The evaluation of "Introduction to Medicine" offered in the Master's Program is changed to "P (Pass)" and "F (Fail)" from AY2024.

*Regarding the grading of courses taken in or before AY2016:

The four-point scale is (from highest to lowest): A, B, and C (each considered passing), and D (failing). The grading system for Certain courses and courses taken at other universities, etc. is the same as above.

(2) Grade Point Average (GPA) *For students admitted after AY2017

The GPA is a numeric value expressing the student's average grade score. Grades are converted into a grade point (GP) on a scale from 4.0 to 0.0 (S: 4.0, A: 3.0, B: 2.0, C: 1.0, D: 0.0) and multiplied by the number of credits for the course. The sum of this calculation is then divided by the total number of credits for registered courses, giving an average score, i.e., the GPA.

$$\text{GPA} = \frac{\text{Total grade points earned (number of credits} \times \text{GP)}}{\text{Total number of credits}}$$

Courses marked as a Pass (P), Certified (G), or Fail (F), as well as optional courses, are excluded from the GPA calculation.

There are two types of GPA scores: the "semester GPA" for relevant semesters and the "cumulative GPA" for all periods of enrollment. Both the semester GPA and cumulative GPA are stated on grade reports. Only the cumulative GPA is shown on the Transcript of Academic Record.

(3) Grade Reports

The Grade Report is available on the keio.jp during the designated period. The university will not send hard copies by post. In order to view the Grade Report, keio.jp ID and password are required. The

period in which the Grade Report is available is announced on the websites. For details on reissuing passwords and using the online system, please refer to “4: Web System.”

(4) Transcript of Academic Record

Grades of completed courses will be reflected on a student's transcript of academic record starting in April of the following year. However, students who have met completion requirements will be able to request a transcript that includes grades for all credits earned during their course of study starting on the first weekday following their date of completion (March 10).

6 Subject Numbering (K-Number)

In AY2022, Keio University introduced a course numbering system (K-Number) in which all courses will be numbered to indicate the subject's level, academic field, and class format.

The K-Number system will allow students to search for courses in academic fields of interest and create a systematic study plan that suits their learning needs.

For courses offered jointly between multiple faculties or undergraduate and graduate levels, a separate number is assigned for each faculty/graduate school, respectively.

For details, please refer to the Japanese version of the course guide and lecture outline.

6: Student Life Services

1 Student Life Services Counter

Student Life Services Section, Office of Student Services (1F, Koyosha)

This office deals with scholarships and financial aid, the Keio Student Health Care Mutual Aid Association (*Gakuseikenpo*), placement and career services, and other matters.

2 Scholarships & Financial Aid

The Keio University Graduate School of Medicine offers scholarships and financial aid specific to the graduate school and available to all Keio students.

Scholarship and financial aid information will be posted at the following link:

https://kif2.keio.jp/jukunai/mita/scholarships/information/jp_shinanomachi_j.html

Major scholarship and financial aid opportunities include:

Name of Scholarship (Application Period)	Type	Amount	Availability	Application Qualification
Scholarships Available to Both Master's and Doctoral Students				
Keio University Graduate School Scholarship	Grant	Non-Exchange Students 600,000 yen/year Exchange Students 500,000 yen/year	Multiple recipients	① Students who are motivated to conduct research but are deemed to require financial assistance to continue their studies ② Students who are of excellent academic standing and character and who are in good health ③ Students who will continue their studies for the entire duration of the scholarship period ④ Students who have paid all their academic fees and expenses up to the previous fall semester at the time of application
Shinzo Koizumi Memorial Scholarship for Graduate Study	Grant	30,000 yen/month	Multiple recipients	Student who are enrolled in a Keio graduate school, have a passion for research, have excellent academic standing and character, and are in good health
Scholarships Available to Master's Students				
Research Encouragement Scholarship for Graduate Students	Grant	Annually 300,000 yen / 500,000 yen / 700,000 yen	All new students (in principle)	*Application procedures explained during orientation following admission

		(*Decided upon review)		If the quota exceeds the number of new students, second-year master's students with excellent academic grades will also be eligible.
Keio University Graduate School of Medicine Master's Program Scholarship	Grant	Up to 1,000,000 yen/year	Multiple recipients	Second-year master's students at the Graduate School of Medicine who will enter a doctoral program the following academic year
Scholarships Available to Doctoral Students				
Keio University Graduate School of Medicine Doctoral Program Scholarship	Grant	Up to 1,000,000 yen/year	Approx. 200 recipients	Students who are of excellent academic standing and character *Annual income may be considered when awarding this scholarship. Third- and fourth-year students who demonstrate outstanding academic achievement during their time at Keio
Iichiro Ushioda Memorial Scholarship	Grant	360,000 yen/year	Multiple recipients	Students who are recognized as having the qualities necessary to actively pursue a career in research
Keio University Graduate School of Medicine Otsuka Fumon / Fusako Scholarship	Grant	Up to 1,000,000 yen/year	Approx. 4 recipients	Students who possess excellent character and academic achievement *Scholarship recipients who have been selected in the past are not eligible to reapply.
Yoshiaki Ishii Future Leaders Scholarship	Grant	1,000,000 yen/year	4 recipients	Applicants must be first-year doctoral students in the Graduate School of Medicine who are engaged in research in the Department of Basic Medical Sciences of the University and meet the following conditions. (1) Applicants must be motivated to study and have excellent grades and character. (2) The applicant must be recognized as having financial difficulties and have good prospects for future success. (3) Applicants must be expected to play an active role in society and contribute to Japanese society.

*Please check the Keio University Student Website regularly as other opportunities will be posted on the scholarships/financial aid page as they become available.

Please check the International Center website (<http://www.ic.keio.ac.jp/>) to confirm application processes for options available to individuals studying abroad.

3 Office of Mental Health (Shinanomachi)

Students can speak with counselors at the Student/Faculty Counseling Room to discuss a variety of concerns. For details, please navigate to the following on the Keio University Student Website: Shinanomachi > Graduate School of Medicine > Student Life > Consultation Services > Consultations. <https://www.students.keio.ac.jp/en/com/life/consult/info.html>(Japanese)

4 Keio Student Health Care Mutual Aid Association (*Gakuseikenpo*)

The Keio Student Health Care Mutual Aid Association (*Gakuseikenpo*) administers medical care benefits, subsidies for accommodation fees at affiliated *ryokan* (Japanese inns with which the *Gakuseikenpo* has an agreement), etc. Please also refer to the Guidebook for the Keio University Student Health Insurance Plan, which was distributed at the time of admission and contains other useful information.

*The medical care benefit system is a plan by which the *Gakuseikenpo* will reimburse a portion of the co-payment of the student's medical expenses when they receive treatment at a medical facility upon presentation of their health insurance card. Please refer to the Guidebook for the Keio University Student Health Insurance Plan for more details.

<https://www.students.keio.ac.jp/en/com/life/health/>

5 Personal Accident Insurance for Students Pursuing Education and Research

In consideration of cases where a student suffers a physical injury in Japan or overseas as a result of a sudden or fortuitous accident of an external origin in the course of educational and research activities, Keio University has joined the "Personal Accident Insurance for Student Pursuing Education and Research" (abbreviated as *Gakkensa*) of the Japan Educational Exchanges and Services Association (JEES) and will pay all insurance premiums.

Personal Accident Insurance for Students Pursuing Education and Research

<https://www.students.keio.ac.jp/en/com/life/health/insurance.html>

"In the course of educational and research activities" as covered by this insurance refers to:

(1) During Regular Curricular Activities

"Activities" covers lectures, experiments, training, seminars, and practical training (hereafter collectively called "classes") and includes the following:

- ① When engaged in thesis or dissertation research under the direction of a research supervisor (excluding periods where the student is engaged in these activities for personal reasons).
- ② When participating in class preparation or cleanup, or conducting research activities, at school facilities such as in the university library or reference room, or in a language learning facility, as directed by a research supervisor.
- ③ When taking regular courses at other universities or junior colleges in accordance with the provisions of Article 28 of the Standards for the Establishment of Universities and Article 15 of the Standards for the Establishment of Graduate Schools. The term "other universities or junior colleges" herein includes foreign universities or junior colleges.

(2) During School Events

This covers participation in educational activities which include the entrance ceremony, orientation, and graduation ceremony, and other events hosted by the school.

(3) While in the Premises of a School Facility Outside of Points (1) And (2)

This covers periods when the insured is in school facilities owned, used, or managed by the school for education (excludes periods where the student is in the dormitory, activities held in times or places prohibited by the school, and conduct prohibited by the school).

(4) While Commuting to and from School or While in Transit Between School Facilities

This covers accidents during transit between university facilities or traveling to/from a university facility and the insured person's address at time of enrollment.

(5) While Engaging in Extracurricular (Club) Activities Outside of School Facilities That Keio University Has Been Notified Of

This covers cultural or athletic activities in accordance with the school rules and regulations and under the supervision of a student group approved by the school (excludes dangerous sports such as mountain climbing and hang gliding).

Insurance benefits shall be paid based on the claim of the applicant (insured person). In the event of an accident during the above activities, the applicant should consult with the Student Life Services Section of the Office of Student Services and follow the prescribed procedures. In addition, to ensure smooth processing, please submit a Notice of Off-Campus Research form (Japanese) when conducting research at an institution or facility other than Keio University.

For other details regarding this insurance, please refer to Handbook for Enrollment of Personal Accident Insurance for Students Pursuing Education and Research "*Gakkensai*" distributed at time of admission or ask directly at the Student Life Services Section of the Office of Student Services.

6 Voluntary Insurance Programs

The following two compensatory plans can be joined voluntarily: Please contact the provider directly to request information or to join.

For students in the Master's Program for Cancer Professional Development, it is mandatory to have *Gakkensai* liability insurance in order to participate in clinical training. Please apply during April at the Shinanomachi Office of Student Services. Applications must be resubmitted each academic year.

(1) Comprehensive Student Compensation Plan

Keio Academic Enterprise Co., Ltd. (Keio University affiliate)
TEL: 03-3453-3846

(2) Cooperative Benefits Program

Keio Co-op
TEL: 045-563-8489

(3) *Gakkensai* Liability Insurance Coupled with Personal Accident Insurance for Students Pursuing Education and Research & Contact Infection Coverage

Student Life Services Section, Office of Student Services
TEL: 03-5363-3665

7 Health Management

(1) Health Checkups

① Annual Health Checkup

A health checkup is conducted once a year (around April) for all year levels at the university in accordance with the School Health and Safety Act. Students must participate every year.

If you do not undergo your health checkup, you will not be able to obtain a Certificate of Annual Health Checkup.

However, if you are unable to receive the student health checkup due to working at another medical institution, and the health checkup items at your workplace meet the requirements here, you may substitute those results for the student health checkup. For more details, please refer to the health checkup guidance.

② For Those with Both Student and Faculty/Staff IDs

The Health Center mainly uses keio.jp to provide information on health checkups and reservations and to notify students of results. If you have both student and faculty/staff IDs, you will need to obtain and activate separate Keio IDs and have a health checkup according to your status.

keio.jp Activation

Please refer to the KIC websites listed below. Please follow the procedures for both (a) and (b).

(a) Registration for Students

https://www.itc.keio.ac.jp/en/keiojp_manual_activation_newstd.html

(b) Registration for Faculty/Staff Members

https://www.itc.keio.ac.jp/en/keiojp_manual_activation_facact.html

Shinanomachi Spring Health Checkups

At Shinanomachi, students may receive multiple notifications regarding health checkups in the spring, but please note that you do not have to have more than one checkup. For those who qualify for examinations, please prioritize them as follows:

Priority 1: Pre-Employment Health Checkup → Please take the examination for “faculty/staff.”

Priority 2: Student Annual Health Checkup → Please take the examination for “students.”

The Annual Health Checkup for faculty and staff will be conducted in the fall (around September), so please be sure to undergo the checkup when you are notified.

Due to differences in the health checkups, the spring student health checkup cannot be taken in place of the fall health checkup for faculty and staff members. Please be sure to also undergo the fall health checkup for faculty and staff. (Chest x-rays, however, can be excluded from the fall checkup if they were taken during the spring student health checkup. Please be sure to notify a staff member during your fall checkup.)

Special Health Checkups

Those who interact with hazardous materials (e.g., organic solvents, ionizing radiation) in the course of work or study will receive special health checkup notifications from relevant administrative sections. If you have both student and faculty/staff status, you should participate as a faculty/staff member.

(2) On-Campus Infection Prevention

To prevent the outbreak of infectious diseases such as influenza, COVID-19, and infectious enteritis, we ask that you see a doctor immediately if you are experiencing symptoms such as a fever above 37.5° C, nasal discharge, nasal congestion, sore throat, cough, diarrhea, or vomiting.

If you have contracted or are suspected of having contracted an infectious disease specified in the School Health and Safety Act (such as whooping cough, measles, influenza, epidemic keratoconjunctivitis, or COVID-19), you must immediately refrain from coming to campus and report your condition via the form on the Health Center website. After submitting the form, you will receive a call from the Health Center with further instructions.

<https://forms.gle/zHf5WN7NnGXP6Gnq5>

(Japanese only)

After recovering, you must receive “permission to return to campus interview” administered by the Health Center before returning to campus. After the interview, please ask for an Infectious Disease Report Form and submit it to the Office of Student Services.

If you have not submitted an Infectious Disease Report Form, the Health Center may not be able to conduct an interview.

Shinanomachi Campus Health Center

Direct dial: 03-5363-3634

8 Support for Students with Disabilities (Reasonable Accommodation)

Keio University strives to provide the necessary support and means to ensure that students with disabilities have equal access and equal quality of academic opportunities as other students. All students enrolled in an undergraduate faculty or graduate school at Keio University are eligible for support. The support that Keio offers varies depending on the nature of each student's disability. The specifics of the support (provision of reasonable accommodation) are determined based on what each student requests and will be determined after a constructive discussion that finds overlap between the support a student needs and what specific mechanisms the university is able to provide. It takes about one month from the time of application to the time when the details of reasonable accommodation are determined. If you wish to continue to receive reasonable accommodation, you will need to apply each semester.

For details, please refer to the Office for Equity, Diversity, and Inclusion website.

<https://www.diversity.keio.ac.jp/en/index.html>

* Reasonable Accommodations: Article 7 of the “Act for Eliminating Discrimination against Persons with Disabilities” (2013)

states: “If a person with a disability expresses the genuine willingness to eliminate the social barrier, an administrative organ,

etc., in conducting its administrative affairs or other work, must provide reasonable accommodation to implement the elimination of the social barrier so long as the burden associated with the relevant implementation is not disproportionate, in accordance with the sex, age, and state of the disability of the person with a disability so that the rights and interests of the person with the disability is not violated.” In observation of this rule, we define carrying out the necessary actions as the “provision of reasonable accommodation.”

7: Course Registration Requirements

1 Course Registration

Please read this document carefully and consult with your research supervisor before making any subject decisions. Please contact the Graduate School Section at the Shinanomachi Office of Student Services if you have any questions.

Important: If you do not complete your registration by the deadline, do not request a temporary leave of absence or withdrawal from the university, and your intention to study cannot be confirmed, you will be expelled.

(Article 161 of the University Regulations)

keio.jp Registration Periods:

(1st period) April 3 (Thu) 12:30 – April 5 (Sat) 16:00

(2nd period) April 7 (Mon) 16:00 – April 15 (Tue) 10:00

If you have difficulty submitting your application in the first period, you may submit it during the second period. However, you may not be able to register for some courses (courses offered at other campuses, etc.).

Please be sure to receive instructions from your research supervisor before registering for courses.

(1) Before the Course Registration Period

- ① Please refer to the lecture outline in the Japanese version of the “Registration Guide and Outline of Lectures” and plan your course of study for this academic year.
- ② When selecting classes, be sure to receive instructions from your academic advisor.
- ③ **When taking elective courses in the master’s program and Minor subjects in the doctoral program, be sure to contact the person in charge of the course and receive his/her instructions.**
- ④ If you have any questions about your course of study, please contact your academic advisor or the Graduate School Section of the Student Affairs Division.

(2) During the Course Registration Period

Please register for subjects via K-Support. For details on how to register, please check the “Course Registration System User Manual” on website.

You can modify your registration as many times as you like during the period, so please submit your registration as early as possible during the period. Please note that the system will be down for about one hour from 4:00 a.m. every day for scheduled maintenance.

※ If you take a course for which you have not registered, it will be invalid and you will not receive any credits.

※ Please check the web for the latest information as the timetable is subject to change.

※ **If a student fails to register for a course by the due date, he/she will be dismissed from the university as having no intention to study (Article 161 of the University Regulations). (Article 161 of the School Regulations)**

※For those who have been admitted to study abroad or are scheduled to study abroad, please contact the Graduate School Section of the Student Affairs Division for information on course registration (see p. 8).

Course Registration Procedures

①Refer to the list of class registration numbers, and confirm the names of the courses, the name of the person in charge, and the registration number (5 digits) carefully.

(a) In principle, all courses to be taken in the current academic year are registered in the spring semester. (Additional registration in the fall semester is not allowed except for courses designated by other graduate schools, research centers, or other campuses.)

(b) Doctoral students who enroll in September should consult with the Graduate School Section, Student Affairs Office.

Students should plan to obtain as many credits as possible by the first year of the Master's course and by the second year of the Doctoral course.

※Courses offered jointly with other graduate schools or research centers must be taken under the Graduate School of Medicine's registration number.

※Prior to the 2022 academic year, all courses to be taken during the student's enrollment were registered in the spring semester at the time of entrance, but from the 2023 academic year, only courses to be taken in the current academic year are registered in the spring semester. However, courses to be taken during the first two years of the Graduate School of Medicine are required to be registered at the time of admission. (Master's course: "Special Study on Medical Science" and "Anatomy (In charge of Prof. Kazunori Nakajima)"; Doctoral course: "XX Practice, Seminar, and Advanced Theory (excluding "In Vivo Experimental Medicine: Practice")" and "Affiliated Institute Educational Program").

② Select the subject field.

Each subject has a "field" number that denotes which type of subject it is. There are two types of subjects: "Column A" subjects are tied to a specific field and automatically registered as such, whereas you need to select the field for "Column B" subjects. Please use the 2-digit number corresponding to the field when registering for "Column B" subjects.

(Subjects for which only the subject registration number is needed [Column A])

– Master's students

Optional required subjects at the Graduate School of Medicine

– Doctoral students

Core subjects at the Graduate School of Medicine

(Subjects for which students select the field [Column B])

– Master's students

Elective courses at the Graduate School of Medicine and subjects offered by other graduate schools, research centers, institutes, etc.

– Doctoral students

Minor subjects at the Graduate School of Medicine and subjects offered by other graduate schools, research centers, institutes, etc.

(3) After the Course Registration Period

- ①As a rule, changes in courses will not be accepted. Please make sure to print your course registration as it will be an important copy to show you what you have registered.
- ②After 16:00 on April 18, be sure to check if the courses you have registered for are correctly registered on K-Support.

If necessary, please contact the Student Affairs Division to make corrections during the correction period (April 21–April 22 until 16:00.)

After this period, the course registration for this academic year is considered completed and the course details will be finalized. The University will not be responsible for any problems that may occur due to failure to complete the above (e.g., insufficient credits for completion due to failure to report, wrong courses, etc.; failure to receive mail from the University due to failure to submit a change of address form, etc.).

- ③Students may cancel their course registration after classes have started. If you wish to do so, please follow the specified procedure during the specified period. Cancelled courses will be removed from the list of courses and will not be reflected in the GPA (for students enrolling in 2017 or later only). Course cancellations that will not fulfill the requirements for completion of the course will not be accepted. Since the deletion of a course will result in a change in the course status, please be sure to consult with your academic advisor.

(4) Course Registration Cancellation System

Classification	Application Period	Courses Subject to Cancellation	Method
Course Registration Cancellation Period (First Half of Spring)	10:00 on Tuesday, April 29 – 16:00 on Wednesday, April 30	All courses offered by the Graduate School of Medicine and Spring Semester courses offered by other graduate schools, research institutes, centers, etc. (except for courses offered in the second half of the Spring Semester)	K-Support
Course Registration Cancellation Period (Second Half of Spring)	10:00 on Tuesday, June 24, – 16:00 on Wednesday, June 25	All courses offered by the Graduate School of Medicine, and courses offered by other graduate schools, research institutes, centers, etc. in the second half of the Spring Semester	To fill in and submit the prescribed form at the Office of Student Services counter
Course Registration Cancellation Period (First Half of Fall)	10:00 on Tuesday October 21 – 16:00 on	All courses offered by the Graduate School of Medicine and Fall	To fill in and submit the prescribed form at

	Wednesday, October 22	Semester courses offered by other graduate schools, research institutes, centers, etc. (except for courses offered in the second half of the Fall Semester)	the Office of Student Services counter
Course Registration Cancellation Period (Second Half of Fall)	10:00 on Thursday, December 11 – 16:00 on Friday, December 12	All courses offered by the Graduate School of Medicine, and courses offered by other graduate schools, research institutes, centers, etc. for the second half of the Fall Semester	To fill in and submit the prescribed form at the Office of Student Services counter

For courses offered by other graduate schools, research institutes, centers, etc. for which registration cancellation is not allowed, please refer to the following web page:

<https://www.students.keio.ac.jp/en/com/class/registration/other-faculties.html>

If you wish to cancel courses offered by the Graduate School of Medicine, please do so during the course registration cancellation period (first half of spring) as much as possible.

[Important] Notes on Course Completion

From AY2023, courses offered in the Graduate School of Medicine are marked as “D / F (Fail)” in case students do not participate in the courses or not fulfill the course requirements after registering the courses.

Until AY2022, these courses were marked as “-”, which means not marked, instead of “D / F (Fail)” and remain in the registration as a course which is not assessed yet in the following year .

However, from AY2023 onward, the grade of “-” is used only for the first year of the particular courses* which are assessed over 2 years.

If you have registered courses for which you have no prospect of completing, please delete them during the designated period of Course Cancellation. Failure to do so will result in a grade of “D / F ” (Fail) posted to the student’s academic transcript. The failing grades of courses other than optional courses count toward your GPA of those enrolled after 2016.

Please note that if you wish to retake a course in the next academic year or later, for which you previously received a grade of “D / F (Fail)”, you must follow another application procedure during the designated course registration period.

However, attendance and assignments from previous years will not be taken into account in your grade assessment. You will need to start over to fulfill course requirements for gaining the credits.

2 Registering for Subjects Offered by Other Graduate Schools, Research Centers, and Campuses

If deemed necessary by the research supervisor, and following deliberation by the Graduate School of Medicine Committee, students may take courses at other graduate schools, faculties, or research institutes within Keio University, or courses at external graduate schools or research institutes approved by the Graduate School of Medicine Committee, and, upon evaluation, receive appropriate credit for these subjects. (Article 86-5-① of the University Regulations)

Students may take courses from other Keio University graduate school master's programs or faculties as electives under the direction of their research supervisors. Students who wish to take courses outside of the Graduate School of Medicine are asked to consult with the Graduate School Section of the Office of Student Services about how to enroll.

However, courses at the "Global Research Institute (KGRI)," "Museum Commons (KeMCo)," "Fukuzawa Research Center," "Art Center," and "Shidobunko" are regarded Optional Courses (counted as credits outside the requirements for promotion and completion of courses). The "Center for Quality Assurance in Higher Learning" will also be open to students. Courses offered by the Center can be taken as electives up to a total of 2 credits. Any more than that will be taken as Optional Courses.

*Courses common to all graduate schools (courses established by the "Center for Quality Assurance in Higher Learning"):

Graduate-level Common Courses are courses shared among all graduate schools that are designed to cultivate the knowledge that is necessary for students' research. At the same time, the courses aim to enable students to utilize their own expertise while combining knowledge from all disciplines to create and apply a new kind of "multidisciplinary and interdisciplinary knowledge." It is hoped that students will conduct their studies transcending beyond the academic boundaries of humanities, sciences, and other disciplines. By doing so, students can have a more fruitful time doing their research, advancing their careers, and other pursuits.

Courses are currently available in the following areas. For details on courses offered, please check the portal and other websites, as well as the syllabi. Please note that courses with a large number of applicants may be subject to student screening. In the event of student screening, priority will, in principle, be given to students who have not yet taken the course in question.

(1) Research Skills

Students will acquire the knowledge and skills needed for conducting their research.

(2) Data Science and AI

Students will take classes and seminars to learn how data science and AI technology are used in society, and how to make practical use of them. Courses that conduct seminars will deal with beginner-level programming geared for students with no background in data science.

(3) Environmental Sustainability

Students will combine their knowledge from diverse fields and develop solutions to environmental problems.

Master's Programs

1 Subjects & Credits

Below is a list of courses and the number of credits offered for the AY2025 master's program at the Graduate School of Medicine.

In principle, students enrolled in the master's program may not take courses from doctoral program. Special Studies on Medical Science and Anatomy, taught by Prof. Kazunori Nakajima, are two-year courses.

1. Master's Program Prescribed Subjects

(1) Elective Required Subjects

Subject Name	Credits	Instructor	Subject Type	Notes
INTRODUCTION TO MEDICINE	3 ¹	Koichi Matsuo/Tetsuya Tsuji	A01 01-01-01 Elective required subject	
MEDICAL ETHICS	2	Masatoshi Nara		
COORDINATED CURRICULUM ON BEING A PROFESSIONAL STUDENT IN MEDICAL SCIENCES	2	Kenji Konomi		
CLINICAL EXPERIENCE PROGRAM	1	Junichi Sasaki		—
SPECIAL STUDY ON MEDICAL SCIENCE	18 ²	(Student's thesis advisor)		—
HEALTH ECONOMICS*	4	Rei Goto		Offered in the second semester in conjunction with the Graduate School of Business Administration (at Hiyoshi Campus)
INDUSTRY ANALYSIS: HEALTHCARE INDUSTRY* (Not offered)	4	—		Offered in the second semester in conjunction with the Graduate School of Business Administration (at Hiyoshi Campus)

¹ 5 credits for students enrolled in or before 2023.

² 16 credits for students enrolled in or before 2023.

(2) Elective Subjects

Subject Name	Credits	Instructor	Subject Type	Notes
ANATOMY	2	Kazunori Nakajima	B02 02-01-01 Elective subject	
VASCULAR BIOLOGY	2	Yoshiaki Kubota		
ADVANCED AI MEDICAL SCIENCE	2	Kazuhiro Sakurada		
PHYSIOLOGY	2	Hiroshi Makino		
PHYSIOLOGY	2	Ryuji Morizane		
PHARMACOLOGY	2	Masato Yasui		
MEDICAL CHEMISTRY	2	Toshiro Sato		
MOLECULAR BIOLOGY AND GENETIC MEDICINE	2	Naoko Irie		
PREVENTIVE MEDICINE AND PUBLIC HEALTH	2	Toru Takebayashi		
PREVENTIVE MEDICINE AND PUBLIC HEALTH	2	Tomonori Okamura		
BIOSTATISTICS	2	Yasunori Sato		
PATHOLOGY	2	Shigeki Sekine		
PATHOLOGY	2	Yae Kanai		
MICROBIOLOGY AND IMMUNOLOGY	2	Kazuyoshi Ishigaki		
MICROBIOLOGY AND IMMUNOLOGY	2	Kenya Honda		
LEGAL MEDICINE	2	Masaki Q. Fujita		
HEALTH POLICY AND MANAGEMENT	2	Hiroaki Miyata		
ADVANCED MEDICAL RESEARCH	2	Kenji Tanaka		
ADVANCED MEDICAL RESEARCH	2	Yuki Kagoya		

Subject Name	Credits	Instructor	Subject Type	Notes
INTERNAL MEDICINE	2	Jin Nakahara		
INTERNAL MEDICINE	2	Keisuke Kataoka		
INTERNAL MEDICINE	2	Masaki Ieda		
INTERNAL MEDICINE	2	Yuko Kaneko		
INTERNAL MEDICINE	2	Kaori Hayashi		
INTERNAL MEDICINE	2	Takanori Kanai		
INTERNAL MEDICINE	2	Motohiko Kato		
INTERNAL MEDICINE	2	Koichi Fukunaga		
SURGERY	2	Yuko Kitagawa		
SURGERY	2	Akihiro Fujino		
SURGERY	2	Hideyuki Shimizu		
SURGERY	2	Keisuke Asakura		
NEUROSURGERY	2	Masahiro Toda		
CLINICAL ANESTHESIOLOGY	2	Takashige Yamada		
ORTHOPAEDICS	2	Masaya Nakamura		
REHABILITATION MEDICINE	2	Tetsuya Tsuji		
REHABILITATION FOR CANCER PATIENTS	2	Tetsuya Tsuji		
PLASTIC SURGERY	2	Kazuo Kishi		
DEVELOPMENTAL MEDICINE	2	Satoshi Narumi		
OBSTETRICS AND GYNECOLOGY	2	Wataru Yamagami		
OBSTETRICS AND GYNECOLOGY	2	Mamoru Tanaka		

Subject Name	Credits	Instructor	Subject Type	Notes
OPHTHALMOLOGY	2	Kazuno Negishi		
DERMATOLOGY	2	Masayuki Amagai		
UROLOGY	2	Mototsugu Oya		
OTORHINOLARYNGOLOGY	2	Hiroyuki Ozawa		
PSYCHIATRY	2	Hiroyuki Uchida		
KAMPO MEDICINE	2	Koichi Fukunaga		
RADIOLOGY	2	Masahiro Jinzaki		
RADIOLOGY	2	Atsuya Takeda		
DENTISTRY AND ORAL SURGERY	2	Taneaki Nakagawa		
PHARMACOKINETICS	2	Hisakazu Ohtani		
LABORATORY MEDICINE	2	Hiromichi Matsushita		
EMERGENCY AND CRITICAL CARE MEDICINE	2	Junichi Sasaki		
INFECTIOUS DISEASES	2	Ho Namkoon g		
CLINICAL GENOMICS	2	Kenjiro Kosaki		
SPORTS MEDICINE (Not offered)	2	—		
CANCER GENOMICS	2	Hiroshi Nishihara		
BEHAVIORAL SCIENCE	2	Taishiro Kishimoto		
SYNAPTOLOGY	2	Michisuke Yuzaki		
BIOMEDICAL INFORMATICS AND MOLECULAR BIOLOGY	2	Dai Kusumoto		

Subject Name	Credits	Instructor	Subject Type	Notes
SIGNAL EXPLORATION	2	Wataru Shihoya		
ION SIGNALING AND RESPONSE	2	Airi Jo		
MULTIDIMENSIONAL ANALYSIS OF GASTROINTESTINAL BIOLOGY	2	Tomohisa Sujino		
EPIGENETICS AND STEM CELL BIOLOGY	2	Tsunetoshi Nakatani		
QUANTUM BIOLOGY	2	Mari Kubota		
DESIGN AND ANALYSIS OF CLINICAL TRIALS	2	Yasunori Sato		
FUNDAMENTALS OF EPIDEMIOLOGY	2	Daisuke Sugiyama		Jointly held with doctoral program
CLINICAL EPIDEMIOLOGY	2	Tomonori Okamura		Jointly held with doctoral program
BIOSTATISTICS	2	Yasunori Sato		Jointly held with doctoral program
INTRODUCTORY BIostatISTICS1	2	Daisuke Sugiyama		Jointly held with doctoral program
INTRODUCTORY BIostatISTICS 2	2	Daisuke Sugiyama		
CHEMISTRY	2	Hiroyoshi Inoue		
EMERGENCE OF DATA DRIVEN SOCIETY AND STRATEGY*	2	Kazuto Ataka		Offered during the fall semester, Thursdays, 2nd period Offered in conjunction with SFC
HEALTH CARE MANAGEMRNT POLICY*	2	Hiroshi Nakamura		Offered in conjunction with the Graduate School of Buginess Administration (at Hiyoshi Campus)

*Please use the “Course Registration Number List” to confirm courses offered this academic year and instructors.

*If multiple instructors offer the same course, each one can be taken as a different course.

Subjects with an asterisk () after the name are courses offered by the Entrepreneurship Development Program.

2. Course Enrollment Notes

(1) Course Selection

When selecting courses, please follow the instructions of your research supervisor. Students are encouraged to obtain as many credits as possible in the first year of study, except for "Special Study on Medical Science," which is required for completion. This allows them to focus on writing their master's thesis and engaging in research activities in the second year. Additionally, "Special Study on Medical Science" and "Anatomy (taught by Prof. Kazunori Nakajima)" are assessed over two years, so students must register these courses in the first year of study.

(2) Taking Elective Courses

When taking elective courses, please be sure to contact the person in charge of the course in April and receive instructions (Excluding "Clinical Epidemiology", "Biostatistics". Please note that if you do not contact the course director and receive instructions, you will not receive credits for the course, which will be to your disadvantage.)

(3) Taking elective required courses

It is desirable for students to take all of the following elective compulsory subjects: "Introduction to Medicine," "Medical Ethics," "Coordinated Curriculum on Being a Professional Student in Medical Sciences," "Clinical Experience Program" and "Special Study on Medical Science".

The contents of "Medical Ethics" and Coordinated Curriculum on Being a Professional Student in Medical Sciences " has been changed in the academic year 2023. In addition, the grading system has been changed to "P (pass)" and "F (fail)".

The contents of "Introduction to Medicine " is changed in the academic year 2024. In addition, the grading system will be changed to "P (pass)" and "F (fail)".

*Please count and keep track of the number of times you attend lectures by yourself. The Office of Student Services will not inform you of the number of times you attend lectures.

3. Submission of Research Plan

The "Research Plan" should outline your plans for the title, purpose, and research/experimental plan of your research while you are in graduate school. After careful consultation with your research supervisor, obtain his/her signature and seal.

After careful consultation with your research supervisor, submit the signed and sealed plan to the Graduate School Section, the Office of Student Services by the end of July of your first year of study.

4. Cancer Professional Development Program

(1) Registering for Subjects

Students enrolled in the university as part of the Cancer Professional Development Program must acquire at least 26 credits from elective required subjects and satisfy the following three criteria:

i. Students must take and receive credits from each of the following elective subjects:

– REHABILITATION MEDICINE

– REHABILITATION FOR CANCER PATIENTS

ii. Students must take and receive credits from each of the following jointly held master's and doctoral program subjects:

- BIOSTATISTICS
- BASIC ONCOLOGY
- CLINICAL ONCOLOGY
- CUTTING-EDGE GENOMIC MEDICINE

(iii) Students must attend lectures for PALLIATIVE MEDICINE. (Students are not required to register for the subject, but must attend the lectures.)

(2) Off-Campus Research

Students who wish to conduct second-year practical training at the Shizuoka Cancer Center are asked to consult with the Cancer Professional Development Program administrator at the Office of Student Services by the summer of their first year. Please refer to p. 15 of this guide for more information on notifying the university of off-campus research. For students in the Master's Program for Cancer Professional Development, it is mandatory to have *Gakkensai* liability insurance in order to participate in clinical training. Please refer to p.28 of this guide.

5. Entrepreneurship Development Program

(1) Course Completion Requirements

Those who have enrolled in the Entrepreneurship Development Course and fulfill the following conditions ① and ② will be certified as having completed the course.

The student must also fulfill the requirements for completion of the master's course as described in [2 Requirements for Completion of Course].

① Students must take 4 out of the following 6 courses and earn credits.

ACQUIRING ENTREPRENEURSHIP SKILLS

REGULATORY SCIENCE

INNOVATION IN HEALTH AND MEDICINE

EMERGENCE OF DATA DRIVEN SOCIETY AND STRATEGY

HEALTH ECONOMICS

INDUSTRY ANALYSIS: HEALTHCARE INDUSTRY

② Incorporate elements related to entrepreneurship in the master's thesis. However, if this is difficult due to the circumstances of the research theme, etc., the student may submit the learning outcomes related to entrepreneurship as a report separate from the master's thesis.

The report should be a one- to two-page A4 paper summary.

(2) Elective Courses

In addition to the elective courses offered by the Entrepreneurship Development Course, students should take at least 4 credits of elective courses not offered by the Entrepreneurship Development Course.

6. Miscellaneous

(1) Credit Recognition for Students enrolled Under the Dual Degree System

Students enrolled under the dual degree system who wish to receive credit for cross-listed subjects taken while enrolled in a previous graduate school must notify the Graduate School Section of the Office of Student Services by 1st period of the course registration period.

2 Program Completion Requirements

(1) Students must be enrolled in the master's program of the Graduate School of Medicine for at least two years (one year if the dual degree system is applied), conduct research under the guidance of their research supervisor, and earn a total of at least 30 credits meeting the two criteria below under "Required Subjects for Completion."

Required Subjects for Completion

- i. Elective required subjects comprising 26 credits or more
- ii. Elective subjects comprising 4 credits or more

However, students enrolled through the dual degree program from the Graduate School of Business Administration must earn 26 credits from elective required subjects, including 4 credits in HEALTH ECONOMICS and 4 credits in INDUSTRY ANALYSIS: HEALTHCARE INDUSTRY (offered every other year).

(2) Students must present their master's thesis and attend the academic degree evaluation committee meeting, submit the master's thesis, and pass the final assessment.

3 Thesis Submission

Master's Degree Application and Submission of Master's Thesis

The prescribed form can be downloaded from the Keio University Student Website (available around mid-July).

<https://www.students.keio.ac.jp/sn/gsmed/procedure/master/thesis.html> (Japanese)

(Degree Regulations)

Students who complete a master's program are awarded a master's degree. (Article 3)

Students seeking a master's degree in accordance with the provisions of Article 3 shall submit a thesis to the relevant graduate school committee through their research supervisor as prescribed by each graduate school. (Article 7-①)

Procedures for applying for a master's degree and submitting a master's thesis are as follows:

① Submission of Master's Thesis Abstract (Deadline: 16:00 on Wednesday, October 1)

Submit a thesis abstract by downloading the prescribed form from the Keio University Student Website and delivering it to the Graduate School Section of the Office of Student Services. Students must submit this by the designated date corresponding to the year for which they are applying.

② Presentation of Master's Thesis (Monday, October 20 – Tuesday, October 21)※Attendance on both days is required.

Specifics on presentations and time schedules will be announced on the Web at a later date.

Students shall refer to their research supervisor for detailed instructions. An announcement will be made in the unlikely event of a change.

*First-year students are also required to attend.

③ Master's Degree Application and Master's Thesis Submission (Deadline: 16:00 on Monday January 5)※Deadlines are strictly enforced.

The Format of Master's theses will be published on the Keio University Student Website.

Documents to be submitted:

1. Four copies of the master's thesis (three copies in temporary binding and one copy in unbound format)

(However, the number of required copies for submission may increase depending on the number of review committee members.)

2. Permission Form for the Use of Master's Thesis *Download from the Keio University Student Website

***Request from the Shinanomachi Media Center for permission to cooperatively use student thesis.**

The Shinanomachi Media Center (library) maintains a collection of submitted theses. The following rights must be granted by thesis authors (as copyright holders) prior to use:

- Circulation
- Reproduction

When submitting a thesis, students must fill out the "Library Permission Form (Master's)" and submit it with their thesis.

iv. Master's Thesis Review Committee

Specific review processes and time schedules will be announced on the Web at a later date. Students should refer to their research supervisor for detailed instructions. An announcement will be made in the unlikely event of a change.

Master's thesis review committee session: Monday, January 19 – Wednesday, January 21

4 Examination Criteria for Degree Theses and Dissertations

Students must be enrolled in a master's program for at least two years, complete all coursework, and earn the required number of credits as specified in the program outline.

Students must engage in research under their academic advisor, present progress reports on their thesis and receive advice and instruction from experts other than their academic advisor, after which they will submit their thesis. When submitting their thesis to be reviewed for thesis defense, students will present their research to a review committee, who will expect them to answer questions from committee members and will consider how they have incorporated the advice they received into their research. Final approval of their thesis will be made by the Graduate School of Medicine Committee .

1. The thesis is based on **research conducted solely by the applicant.**
2. The thesis research has **a clear objective and methodology.**
3. The thesis draws **the correct conclusions from the research findings.**
4. The thesis research **makes a contribution to the field.**
5. The thesis research was conducted in **accordance with research ethics guidelines.**
6. The applicant possesses **a wide range of medical knowledge and high ethical standards.**
7. The applicant can **accurately present on their research findings and related issues.**

Doctoral Program

1 Subjects & Credits

Below is a list of subjects and the number of credits offered for the AY2025 doctoral program at the Graduate School of Medicine.

(Asterisk (*) denotes subjects are two-year courses.)

※ The "XX:PRACTICE" for students enrolled in or before 2023 is 8 credits.

Medical Science Program

Core Subjects Required by Major

Subject		Credits	Instructor
	MEDICAL ETHICS	1	Masatoshi Nara
	MEDICAL SCIENCE METHODOLOGY	1	Kenji Konomi
	SPECIAL MEDICAL LECTURE	1 ¹	Keisuke Kataoka

¹ 2 credits for students enrolled in or before 2023.

Core Subjects (by Major)

Subject			Credits	Instructor
Anatomy	*	ADVANCED ANATOMY	4	Kazunori Nakajima

HOSPITAL MANAGEMENT BASED ON INTERACTIVE DATA ANALYSIS 2 (offered by the Graduate School of Health Management)	2	Kimio Yoshimura
CASE METHOD TEACHING FOR HEALTHCARE PROFESSIONALS (offered by the Graduate School of Health Management)	2	Shin'ichi Takeuchi (Professor, Nagoya University of Commerce & Business)
Other Approved Subjects	5	

2 Program Completion Requirements

To complete the program, students must take courses that fulfill the requirements for each major and meet the stipulation outlined in Article 109 of the school regulations.

Since research activities will be the priority from the third year onward, students are encouraged to complete their primary and secondary subjects by the end of their second year of study.

Additionally, "XX Practical Training, Seminar, and Advanced Theory (excluding "In Vivo Experimental Medicine: Practice")" and "Affiliated Institute Educational Program" are courses that must be taken over a two-year period. Therefore, students must register for these courses starting in their first academic year.

When selecting courses, be sure to follow the instructions of your research supervisor.

(1) Program Subjects

Medical Science Program

20 or more credits from core subjects + 10 or more credits from minor subjects for a total of 30 or more total credits

Core Subjects (required)

- MEDICAL ETHICS (1 credit)
- MEDICAL SCIENCE METHODOLOGY (1 credit)
- SPECIAL MEDICAL LECTURE (1 credit) ※2credits for students enrolled in or before 2023.
- Subjects in field of specialization (advanced subjects, seminars, clinical electives) (17 total credits) ※16credits for students enrolled in or before 2023.

[Important]

*The contents of " Medical Ethics", " Medical Science Methodology " and "Special Medical Lecture" have been changed in 2023 academic year. Please refer to the lecture outline for details.
* The grading system for "Medical Ethics" and "Medical Science Methodology" has been changed to "P (Pass)" and "F (Fail)" in the academic year 2023.

Minor Subjects

Minor subjects must be in fields outside of core subjects. When seeking to register for a minor subject, please be sure to contact the instructor in **April** for directions. (Excluding "Clinical Epidemiology", "Biostatistics", "Clinical Oncology", "Hospital Management 1,2".) Please note that students who do not contact the instructor and do not follow directions will not receive credits for the subject.

Applied Medicine Program

20 or more credits from core subjects + 10 or more credits from minor subjects for a total of 30 or more credits *For students enrolled in or after 2024

21 or more credits from core subjects + 10 or more credits from minor subjects for a total of 31 or more credits *For students enrolled in or before 2023

Core subjects (required)

- MEDICAL ETHICS (1 credit)
- CLINICAL EPIDEMIOLOGY (2 credits)
- BIOSTATISTICS (2 credits)
- Subjects in field of specialization (advanced subjects, seminars, clinical electives) (17 total credits) *16 credits for students enrolled in or before 2023.

Students enrolled in or after 2024: Students are required to take either " CLINICAL EPIDEMIOLOGY " or " BIOSTATISTICS ". However, it is recommended to take both.

Students enrolled in or before 2023: Both " CLINICAL EPIDEMIOLOGY " and " BIOSTATISTICS " are required.

*Students from non-medical backgrounds may substitute " BASIC EPIDEMIOLOGY " for " CLINICAL EPIDEMIOLOGY " and " INTRODUCTORY BIOSTATISTICS 1 & 2 " for " BIOSTATISTICS ".

*Students who have already taken either BIOSTATISTICS or INTRODUCTORY BIOSTATISTICS 1 and 2 may instead take the intermediate-level biostatistics subjects INTERMEDIATE BIOSTATISTICS and STATISTICAL METHODS IN EPIDEMIOLOGIC RESEARCH.

Minor Subjects

Minor subjects must be in fields outside of core subjects. When seeking to register for a minor subject, please be sure to contact the instructor in **April** for directions. (Excluding "Clinical Epidemiology", "Biostatistics", "Clinical Oncology", "Hospital Management 1,2".) Please note that students who do not contact the instructor and do not follow directions will not receive credits for the subject.

Shared Course Registration Guidelines for Medical Science Program and Applied Medicine Program

– Regarding courses offered by other majors, graduate schools, and faculties (Article 90 of the University Regulations)

If, under the direction of their research supervisor, a student wishes to take courses offered by other majors or graduate schools, up to 5 credits may be counted toward completion requirements, qualifying as minor subjects available as "Other Approved Subjects." Be sure to inquire with the Office of Student Services about how to register for these courses.

*Register for Spring Semester courses and year-round courses in April, and for Fall Semester courses in September. If you wish to take courses outside of the Graduate School of Medicine, please contact the Graduate School Section of the Office of Student Services for information on how to register.

(2) Submission of Research Plan

The "Research Plan" should outline the title, purpose, and research/experimental plan of your research while in graduate school. After careful consultation with your research supervisor, you will be required to submit a signed and sealed research plan.

After careful consultation with your research supervisor, submit the signed and sealed plan to the Graduate School Section, the Office of Student Services, by the end of July during your first year of study. (Students enrolled in September must submit their plans by the end of December.)

(3) Academic Degree Evaluation Committee

During their third year, students undergo an academic degree evaluation conducted by their main research supervisor and at least two other co-research advisors. During this review, they must give a mid-term presentation on their research, which is a requirement for all students enrolled in a graduate program. The schedule and co-research advisors will be determined by the student's main

research supervisor, and the student will be notified by the Graduate School Section of the Office of Student Services.

Please note that without this review, students cannot:

- Submit a thesis to receive a degree while enrolled
- Apply for an enrollment extension
- Withdraw after completing the required course work without submission of a thesis

(4) Cancer Professional Development Program

① Registering for Subjects

Those enrolled in the Cancer Professional Development Program must, in addition to the core and minor subjects of the Applied Medicine Program, take and earn credit from all of the following minor subjects:

- BASIC ONCOLOGY
- CUTTING-EDGE GENOMIC MEDICINE
- PALLIATIVE MEDICINE
- CLINICAL ONCOLOGY
- CHEMOTHERAPEUTIC MEDICINE
- METHODS IN CLINICAL STUDIES

② Second-Year Oncology Rotation

In the summer of the first year of the program, a survey is conducted to determine the rotation schedule. After coordination with the Office of Student Services, rotations are determined between December and February. Students who plan to do training, etc. at an affiliated facility in the second year should consult with the Office of Student Services by the end of June of the first year.

Required Rotation Departments

- Hematology (eight weeks beginning on a Monday)
- Radiation Oncology (two months)
- Palliative Care Center (two months)

*The Radiation Therapy Specialist Training Track replaces Hematology with Chemotherapy (Cancer Center) training and does not require training in the Department of Radiation Oncology.

Elective Rotation Departments

- Training in departments outside the required rotation (one to four months)

Attention: Coordination Regarding Rotation Start/End Dates and Activities Outside of Work

Please contact the faculty member in charge of each department before the start of the rotation to discuss details including the start/end date of the training, required attendance days, and whether or not there will be any pre-start interviews or orientation.

Please discuss in advance if there will be an overlap between required attendance days and days when the student has outside work.

③ Third-Year Basic Research / Training at an Affiliated Facility

- Basic Research: Basic research within Keio University
- Training at the Shizuoka Cancer Center, National Cancer Center, and other affiliated facilities

Students who wish to receive training at an affiliated facility must submit the prescribed off-campus research notification form.

<https://www.students.keio.ac.jp/sn/gsmmed/procedure/master/off-campus-research.html> (Japanese only)

④ Process for Obtaining Degree

Please check the Japanese version.

⑤ For Inquiries

Contact the Cancer Professional Development Track administrator in the Office of Student Services.
ganpro-jimushitsu@adst.keio.ac.jp

Degrees and other graduate school-related inquiries: Student Affairs (Graduate School), the Office of Student Services

kshina-gakui@adst.keio.ac.jp

(5) Other

① Credit Recognition for Students Advancing from the Master's Program in the Graduate School of Medicine to a Doctoral Program in the Following Academic Year (For Students Enrolling in a Doctoral Program from the 2025 Academic Year Onward)

The courses “Medical Ethics” (医療倫理学) and “Coordinated Curriculum on Being a Professional Student in Medical Sciences” (医学方法論) completed in the Master's Program will be recognized as credits for the doctoral courses “Bioethics” (生命倫理学) and “Medical Science Methodology” (医科学方法論) upon enrollment in a Doctoral Program. These credits will be marked as “G (Granted).”

For more details, please contact the graduate school section at the Office of Student Services.

3 Dissertation Submission

Application for Doctoral Degree

When submitting a doctoral dissertation, please check with the Shinanomachi Office of Student Services regarding submission documents and procedures.

(Degree Regulations)

Students who complete the doctoral program are awarded a doctoral degree. (Article 4)

Students seeking a doctoral degree in accordance with the provisions of Article 4 shall submit an application form together with their dissertation and any other documents prescribed by each graduate school to that school's committee through their main research supervisor. (Article 7-②)

(Doctoral Dissertation Submission and Conferral of Doctoral Degrees)

1. Students must have earned the required credits for the doctoral program. (Reference: Graduate School Regulations, Article 88)
2. Students must have at least one paper published or accepted by a peer-reviewed publication before submitting their dissertation.
3. Students must have taken and passed the academic degree evaluation while enrolled in the doctoral program.
4. Submissions must be examined and approved by the student's main research supervisor.
5. After admission to the doctoral program, students must apply for the degree, have their application reviewed, and be approved by the Graduate School Committee. The candidate will be awarded a degree as a "Course Doctor (Katei-Hakase)(KOU)" if these tasks are completed within eight years of admission to the doctoral program, or as "Dissertation Doctor (Ronbun-Hakase) (OTSU)" if these tasks are completed after eight years of admission to the doctoral program. The candidate who has withdrawn from the Doctoral Program after completing the required coursework without submitting of a thesis will be awarded a degree as a "Course Doctor (Katei-Hakase)(KOU)" if these tasks are completed within eight years of admission to the doctoral program, including any periods of leave of absence, or as a "Dissertation Doctor (Ronbun-Hakase) (OTSU)" if these tasks are completed after eight years of admission to the doctoral program, including any period of leave of absence.

(Procedures for Degree Application)

Once the academic degree evaluation is conducted and approved by the Graduate School Committee, the student may apply to the Graduate School Committee for the degree. Specifically, the Graduate School Committee must accept and approve the student's application and doctoral dissertation by **December** of their fourth year. Therefore, the application materials and dissertation must be submitted to the Office of Student Services (Academic Affairs Office) by early **November**. The dissertation must be published (or in press) in a peer-reviewed English language journal, with the candidate as the first author and their affiliation with the Graduate School of Medicine indicated. Specific deadlines vary from year to year, so please check the Instructions for Degree Application. Once the dissertation application is accepted by the Graduate School Committee, an examination is conducted by one main research supervisor and three co-research advisors. These dissertation defense proceedings are open to the public. The candidate will be notified of the date, time, and location by the Office of Student Services (Academic Affairs Office). After the dissertation defense is complete, the Graduate School Committee will make a final evaluation. If the student passes, they will be awarded a Doctor of Medicine degree on March 10 (September 5 for students completing their studies in September).

Students wishing to complete their studies in **March** must consult with their main research supervisor in advance. In this case, students must have already earned the subject credits required for the degree.

In addition, students who demonstrate outstanding achievement may be permitted to complete the program early in just three or three and a half years. Students who wish to complete the program early must consult with the Office of Student Services (Academic Affairs Office) as soon as possible.

4 Examination Criteria for Degree Theses and Dissertations

They must be enrolled in a doctoral program for at least four years (those with outstanding research achievements may be eligible in three years), complete all coursework, and earn the required number of credits as specified in the program outline. They must engage in research under their academic advisor, present progress reports on their dissertation and receive advice and instruction from experts other than their academic advisor, after which they will submit a final original dissertation in English or a dissertation that summarizes several examples of their published research. Dissertation defense will be opened internally and they will present their research and lab notes to a review committee, who will expect them to answer questions from committee members and will consider how they have incorporated the advice they received into their research. After the defense, final approval of their dissertation will be made by the Graduate School of Medicine Committee .

1. The dissertation is based on **research conducted solely by the applicant.**
2. The dissertation research has **a clear objective and methodology.**
3. The dissertation draws **the correct conclusions from the research findings.**
4. The research findings **display creativity and originality on par with international standards.**
5. The thesis research was conducted in **accordance with research ethics guidelines.**
6. The applicant possesses **a specialized expertise, depth of knowledge, and high ethical standards.**
7. The applicant is skilled at **accurately presenting on their research findings and related issues.**
8. The applicant has **a clear vision for the development of future research topics.**

5 Extension of Enrollment & Withdrawal

Students who expect to be enrolled in the doctoral program for more than 4 years at the end of the semester must complete the procedures for extending the period of enrollment or withdrawing from the program after earning the required credits by the deadline, unless the degree has been approved for conferral.

The prescribed form can be downloaded from the following website for students.

<https://www.students.keio.ac.jp/sn/gsmmed/procedure/status/form2.html>

(1) Extension of Enrollment

If it is determined that a student who has already earned the credits required to complete the doctoral program during their four years of enrollment and has undergone the screening for completion of program requirements still needs more time to complete their dissertation, they may apply for an extension of enrollment, in six-month increments, for a maximum of up to four years. (See Article 128 of the University Regulations.)

If a student wishes to extend their enrollment beyond April, they must submit an Application for Extension of Enrollment Period to the Graduate School Section of the Office of Student Services by Mid-February. If a student wishes to extend their enrollment beyond September, they must submit

the application by the end of July after consulting with their main research supervisor. (Applications will not be accepted after the deadline under any circumstances.)

During the extended period of enrollment, only thesis supervision is allowed, and course enrollment is not permitted.

For more information, please contact the Graduate School Section of the Office of Student Services as soon as possible.

(2) Withdrawal from the Doctoral Program (After the Completion of Required Coursework without Submission of a Thesis)

Students who have earned the credits required for completion of the doctoral program, undergone the evaluation for the completion of program requirements, and obtained approval from the Graduate School Committee, but who do not wish to extend their period of enrollment, must submit a Notification of Withdrawal from the Doctoral Program with the Completion of Course Requirements.

List of Master's/Doctoral Committee Members at the Graduate School of Medicine

Please refer to the Japanese version of the course guide for an introduction to each professor's research.

Thesis/Dissertation Review Qualifications		Affiliation	Position	Name
Master's	Doctoral			
○	●	Department of Anatomy	Professor	Kazunori Nakajima
○	●	Department of Anatomy	Professor	Yoshiaki Kubota
○	●	Department of Physiology	Professor	Hiroshi Makino
○	●	Department of Physiology	Professor	Ryuji Morizane
○	●	Department of Pharmacology	Professor	Masato Yasui
○	●	Department of Biochemistry	Professor	Toshiro Sato
○	●	Department of Molecular Biology	Professor	Naoko Irie
○	●	Department of Hospital Pharmacy	Professor	Hisakazu Ohtani
○	●	Department of Preventive Medicine and Public Health	Professor	Toru Takebayashi
○	●	Department of Preventive Medicine and Public Health	Professor	Tomonori Okamura
○	●	Department of Biostatistics	Professor	Yasunori Sato
○	●	Department of Pathology	Professor	Shigeki Sekine
○	●	Department of Pathology	Professor	Yae Kanai
○	●	Department of Microbiology and Immunology	Professor	Kazuyoshi Ishigaki
○	●	Department of Microbiology and Immunology	Professor	Kenya Honda
○	●	Department of Legal Medicine	Professor	Masaki Q. Fujita
○	●	Department of Health Policy and Management	Professor	Hiroaki Miyata
